BULGARIA ROUTED APPEALS FOR PEACE

Greeks and Servians Combine Forces—Rumanians Invade Bulgaria

POWERS ATTEMPT MEDIATION

Dissensions in High Military Circles. Russia and France Encouraging Peace—Servian Premier Sets Aside Treaties.

London, July 10.—The end of a fortnight's desperate fighting in the Balkans Bulgaria is forced to appeal to the powers to arrange peace. The Bulgarian plan to drive a wedge between the Greek and Servian armies in the neighborhood of Guevgheli has completely failed. The last reports of the fighting received from Athens tonight show that the Servians and Greeks at this point are combining their forces, while the Rumanian army is beginning an invasion of Bulgaria. The latter fact doubtless was the deciding factor in the Bulgarian appeal to the powers.

How far Bulgaria's defeat is due to dissensions in high military quarters, which resulted in the resignation of Gen. Savoff, and how far to the fact that the Bulgarian troops, which bore the brunt of the hard fighting in the last campaign, were more exhausted than the Greek and Servian forces, will probably never be known.

Nothing can be predicted at the moment as to how events will shape themselves, the Rumanian invasion of Bulgaria having brought an entirely new factor into the problem. Russia and France are devoting their efforts to persuading the allies to adopt a moderate attitude in order to facilitate a peaceful settlement.

The Servian premier is quoted in the Vienna Neue Freie Presse as declaring that the war has completely set aside all treaties of alliance, and that peace must now be negotiated on an entirely new basis.

Negotiations With Turkey

London, July 6.—The negotiations between Bulgaria, represented by M. Natchevitch, and Turkey, are pursuing a friendly course. It is said that M. Natchevitch has proposed a frontier line more advantageous to Turkey than the Enos-Midia line.

Desperate Battle in Progress

Athens, July 10.—Official dispatches report the continued pursuit of the Bulgarian and a desperate battle in the passes of Mount Belissi and on the road from Doiran to Strumitza which resulted in complete victory for the Greeks and the routing of the Bulgarians.

The capture of these passes was a disaster for the Bulgarians because it enabled the Greeks to attack the rear of the Bulgaian fourth army corps, which had its front fortified against the Servians.

Victory for the Greeks

The Bulgarians hastily abandoned their fortified positions in front of Islip, and fled headlong from the furious assault of the Greek infantry, who captured nine guns. The Greeks pursued the enemy as far as Strumitza.

On the extreme left the Greeks today attacked the Bulgarians near Demizhissir.

Late Bulletin

London, July 11.—The King of Rumania has declared war on Bulgaria. The Rumain minister at Sofia has been recalled. The Sofia correspondent of The Times sends this announcement early this morning.

FIGHT FOR JUST RATES

Hardware Men in Session Take a Stand With Governor Craig

Richmond, Va., July 10.—Acting on resolutions adopted at the afternoon session, the Hardware Association of the Carolinas, in session here, today telegraphed Governor Locke Craig, of North Carolina, that four hundred members of the organization are standing behind him in the fight to secure lower freight rates for Carolina cities.

The resolutions declare that the dealers will continue to fight until freight rates are put on the same equitable basis as those now enjoyed by cities in Virginia. The resolutions were adopted after an address by Norman H. Johnson, in which he urged prompt and vigorous action. "As long as you have legislators who talk for the people and are privately controlled by the railroads you will get no relief," he said.

Charles A. Ireland, of Michigan, president of the National Hardware Association, delivered an address, devoting much attention to the question of competition with mail order houses, which has increased since the inauguration of the parcel post.

PRESIDENT WILSON LOST

Missed the Trail While Traversing New Hampshire Forest in Auto

Cornish, N. H., July 10.—President Wilson got lost in the New Hampshire woods late today, finally reaching here at 8 o'clock, an hour late for dinner, after a long automobile ride. The President started shortly before 4 o'clock with Mrs. Wilson and several others, motoring along the Connecticut river for many miles toward Springfield, N. H., intending to make a wide circuit homeward. They got tangled up in the route, then were overtaken by darkness. The President passed through several small towns where he was often recognized, but made no stops except to inquire the route home.

When the President returned, he declined to say whether he would take any action in connection with the threatened strike of railway conductors and trainmen on Eastern lines.

PERRY VICTORY CELEBRATED

Secretary Daniels Lauds Naval Heroes, Declaring "The Man is Greater Than the Ship". Triumph Reviewed.

Erie, Pa., July 10.—Exploits of America's early naval heroes were lauded as splendid examples proving that "The man is greater than the ship" here today by Josephus Daniels, Secretary of the Navy, in an address at the Perry Victory Centennial celebration. The Secretary told again the wonderful story of Oliver Hazard Perry's little improvised fleet and its triumph over the great British men-of-war under veteran officers; he recalled the inspiring death of Lawrence with the words, "Don't give up the ship', but recently off his lips and still in his heart," and he dwelt upon the magnificent daring of John Paul Jones.

"It is not always the highest training and skill which wins the battle, although we must not for a moment under-rate the value of these," Mr. Daniels said. "It was this marvelous initiative, this unconquerable will power which saved the day for the young Republic at the battle of Lake Erie and gave Perry immortal fame. The man is greater than the ship. I am afraid there is danger in this day of technical things, this day of methods and models, and mechanisms, that we may get too far away from the idea that readiness and aptitude and initiative, alertness to change the line of battle with changing circumstances in the fate of the fray, are vital to success.

"Perry wrote to the Secretary of the Navy before the battle, during his agonized efforts to get ready. 'Give me men, sir, and I will acquire both for you and myself honor and glory on this lake or perish in the attempt.' Men who mean to die if they don't succeed, usually win. God gives us the Jones and Perry spirit today.

Perry's Achievement.

"I am lifted up in admiration as I contemplate the results Perry achieved when the difficulties loomed up before him so large, so discouraging. He not only had his fleet to build but the big vessels to get across the bar from the bay into the lake, and that in the face of a blockade by the enemy; he had to go about getting his armament and supplies; he was not supplied with men enough for his fleet by his superior or by Congress until the last minute when there was hardly enough time to train them in their duties, and when the battle did begin he found himself ill supported by his inexperienced little flotilla and was left to bear the brunt of the conflict with a veteran of Nelson opposing him. None of these things moved him. He rose superior to every difficulty.

"There is a tremendously important lesson involved in this example that Oliver Hazard Perry has set us. In every avenue of life it applies. God pity the man who gives up. Life is too full of opportunities to 'throw up the sponge'. Despair is the knife that stabs success to the heart.

"The people of Erie have done well to raise the old hull of the Niagara and restore her to the form in which she appeared in the day of her glory when she came into the great sea battle in the time of crisis, and snatched victory from defeat. I know that she was criticised for not getting into the battle at the first, but who can say that the Unseen Plot of human destinies was not in this, so that she was kept fresh and ready to come in as the reserve force and win the day. I have been greatly interested in the splendid work you people have done in raising her. As she goes up the lake this Summer and Fall, carrying the famous flag, with the immortal motto, and reminding the youth of the day of the glorious episode in which she played so important a part may fortune 'sit upon her prosperous helm'."

Holding in his hands a gavel fashioned of wood and iron taken from the Lawrence and Niagara, flagships of Commodore Perry's little fleet at the battle of Put-in-Bay, Secretary Daniels promised before the crowd gathered on the harbor front, to give it to his son in order that he might better emulate the example of the great naval hero of the Lakes.

The incident closed a remarkable demonstration in connection with Erie's Perry Centennial celebration. Mr. Daniels spoke of the importance of initiative, of the value of the example set by Lawrence, Perry and John Paul Jones.

He had just taken his seat when Senator Penrose, after arguing for a big navy "in order that the United States might be considered in every international circumstance," presented the gavel to Mr. Daniels.

Mr. Daniels hestitated as he accepted the gavel, then expressed his pleasure. Turning imoulsively to the crowd he said: "I will take this gift back with me to Washington, and I will give it to my son so that he may be more able to appreciate and emulate the example of this great hero of these Great Lakes, and of his uncle, Worth Bagley, who gave his life for the flag on the Cuban coast."

After his address Mr. Daniels and his party reviewed the naval parade. Mr. Daniels while here today called on Mrs. Harriet Gridley, widow of Captain Charles V. P. Gridley, who commanded the Olmypia at the battle of Manila Bay, and who died soon afterward. Mr. Daniels went with her to Captain Gridley's grave and placed a wreath on it. Early in the evening the secretary departed for Washington.

PRODUCTION OF TOBACCO

Senator Hitchcock Requests Revenue Statistics from Treasury Dept.

Washington, July 10. — Senator Hitchcock, of Nebraska, today introduced a resolution calling upon Secretary of the Treasury for statistics showing the pound production of tobacco in the United States and the amount of internal revenue collected from 20 largest tobacco manufacturers in the last fiscal year. The Senator wants the information for use in urging his amendment to the Underwood-Simmons tariff bill providing a graduating income tax on tobacco production.

GOVERNOR BLEASE WILL COME ACROSS

Says He Will Comply With Federal Authorities in Every Way

RESUME FEDERAL ASSISTANCE

South Carolina Executive Anxious to Have Federal Aid Restored to Militia of His State—Wires War Secretary.

Columbia, S. C., July 10.—In a telegram addressed to Secretary of War Garrison today by Governor Cole L. Blease, the latter indicated his willingness to comply with specifications of conduct for the resumption of Federal assistance to the South Carolina National Guard. Secretary Garrison in a letter received today notified South Caroina's chief executive that he must resume proper relations with the War Department before Federal assistance to South Carolina organized militia would be resumed, saying that he expected Governor Blease to give co-operation and assistance in requiurng the militia to comply with the provisions of the law.

Complying with the mandate of the Secretary, Governor Blease today addressed the following telegram to the war secretary:

"All South Carolinians endeavor to do their duty. If these boys are allowed a chance they will do theirs, and I shall do all I can to encourage and assist them, and you can count upon my co-operation and assistance in bringing about a compliance on the part of the National Guard of this State with the provisions of the militia law as enacted by Congress, under the conditions of my former letter and reply thereto.

"Wire orders for encampmnets, beginning July 17th."

Washington, July 10.—Relations between the War Department and the militia of South Carolina, broken off recently because Governor Blease refused to comply with the Federal authorities were resumed today when Secretary Garrison received a telegram from the Governor, saying he would co-operate in every way. Secretary Garrison immediately telegraphed Governor Blease that he had issued orders for the continuance of Federal aid to the militia of South Carolina, and also had revoked a former order which would have prevented the attendance of regular army officers at the forth-Coming State encampment.

Last week members of the South Carolina Congressional delegation together with several officers of the State militia, called on Secretary Garrison in an effort to heal the rupture which followed previous correspondence between the department and Governor Blease. The secretary told his callers that if Governor Blease would comply with the Federal regulations Federal aid to the South Carolina militia would be restored.

FAIR PROGRESS MADE

Committee Attempting to Reach Agreement on Currency Bill

Washington, July 10.—The Democratic majority of the House committee on banking and currency made fair progress on the administration currency bill today. No change of substantial importance was made and a general disposition to get together as quickly as possible was evidenced. Committee members said that at the present rate consideration of the bill might be completed by the middle of next week, to be followed in all probability by a Democratic caucus with a view to binding the House Democrats to the measure as it comes out of the committee.

The bill is being considered in executive "conference." Adoption of the Bulkley sub-committee report in favor of open session for all committee and sub-committee meetings will have no effect until the bill receives the stamp of approval of the Democratic majority, and the Republican and Progressive members of the committee are called in.

ARBITRATION SLOW

Railroad Officials Believe Officials Should Take Initiative Step

New York, July 10.—No step was taken today by the conductors and trainmens' representatives towards arbitrating their wage differences with 45 Eastern railroads. The union leaders assume the attitude that peace overtures should come from the railroads. They disclaim present interest in developments at Washington, where next Monday the National Civic Federation proposes to urge modification of the Erdman arbitration act, amendments to which are now before Congress. It is hoped by the sponsors of the civic federation's conference next Monday at the capital, that their efforts will expedite an amendment to the Erdman act in time to forestall the threatened strike of 100,000 railway employes.

The scheduled meeting for next Saturday, of the "committee of 1,000," is expected to ratify the strike vote, but this does not mean an immediate walk-out.

CONGRESS CONDENSED.

Washington, July 10.—Senate: Met at 2 P. M.

Currency committee met, but agreed on no plan for action on administration bill.

Lobby committee continued taking testimony.

Adjourned at 4:25 P. M. until 2 P. M. tomorrow.

House: Not in session; meets Saturday.

Rules committee promised woman suffragists a hearing in December.

Lobby committee met and prepared to begin hearings Monday.

THE TARIFF BILL ANALYZED

Senator Smoot Asserts Certain Provisions of Underwood-Simmons Measure May Repeal Portion ofCanadian Act.

Washington, July 10.—That the provision of the Underwod-Simmons tariff bill levying a duty of 12 per cent ad valorem on print paper valued at more than 2 1-2 cents a pound, and not more than 4 cents a pound, may repeal a portion of the Canadian reciprocity act of 1911, is contended in the analysis of the measure prepared under direction of Senator Smoot, Republican members of the Finance committee.

If it does not operate to repeal the law, it is contended that there will be two rates in controversy on this grade of poper.

Besides the duty of 12 per cent ad valorem, the Democratic bill would impose a countervailing tax in retaliation for export license fee or other charge imposed by a foreign country.

"An interesting point to consider," the Smoot analysis sets forth, "is the effect of the enactment of this paragraph on the portion of the Canadian reciprocity which admits to entry free of duty paper imported from Canada valued at not more than four cents per pound. With respect to printing paper valued at more than 2 1-2 and not more than four cents per pound, it is manifest that there is a complete repugnance between the two statutes, for by the terms of one, the act of 1911, it is free of duty, and by the terms of the tariff bill, it is subject to a duty of 12 per cent ad valorem. Nor can the two statutes be construed as to stand together. Under such circumstances the rule of law is that the statute of late date must prevail over the earlier statute, as being the latest expression of the legislative will, and that consequently the earlier statute stands repealed by implication."

Republican leaders will make a point of this on the floor of the Senate.

Tomorrow the tariff bill will be reported to the Senate, but the majority report favoring the measure will not be presented by Chairman Simmons until Monday. If Republican leaders do not press for more time in which to consider the measure general debate will begin on Monday. This question will be decided at a meeting of the full membership of the Finance committee tomorrow morning.

JACK JOHNSON AT PARIS

Hotels of French Capital Refuse Negro Pugilist Accommodations

Paris, July 10.—"Jack" Johnson, the negro heavyweight champion fighter, accompanied by his wife and his nephew, reached Paris this afternoon from the United States by way of Montreal. The pugilist drove to a number of hotels before he was able to find accommoditions.

Johnson said he intended to make Paris his headquarters in the future and that never on any account would he fight again in America. He added that he had arranged for a number of fights to take place in Europe in the Autumn.

Referring to his recent sentence under the "white slave" act to serve one year in the Leavenworth penitentiary, Johnson declared he would carry the case to the higher court, confident a decision ultimately would be given in his favor. It is not generally believed here that Johnson will be deported from France, but the French authorities have not yet arrived at any permanent decision.

Chicago, July 10.—Assistant District Attorney Harry A. Parkin, who conducted the prosecution of Jack Johnson for violation of the Mann law, declared today nothing could be done at present to compel the forfeiture of Johnson's bonds. The negro is under a $30,000 bond for indictments on which he has not yet been tried. He is under a bond also of $15,000, pending the hearing of his case in the United States Circuit Court of Appeals.

MURPHY TAKES STAND.

No More Games at Chicago to be Called to Catch Trains.

Chicago, July 10.—No more games at the Chicago National League grounds will be curtailed to allow a team to catch a train, according to an edict issued today by President Murphy. The order will do away, Mr. Murphy thinks, with any incentive to "stalling," which umpires charged the Chicago team did in the second game with St. Louis here last Sunday. Mr. Murphy, however, still denies the umpires took the right course in forfeiting the game to the visitors, and today appealed from President Lynch's decision sustaining the arbiters to the National League s board of directors.

The Kappa Delta Sorority is in session at Asheville, N. C.

Secretary of the Navy Daniels delivered an address at the Perry Victory Centennial celebration yesterday.

Hardware Association of the Carolinas takes a stand with Governor Craig in the matter of securing just freight rates for the States.

Senator Smoot, Republican, asserts that certain provisions of the Underwood-Simmons tariff bill may repeal a portion of the Canadian reciprocity act.

Congress will make a searching investigation of the industrial wars which have been waged for the past ten years instigated to influence legislation.

New York markets: Money on call steady, 2 to 2 1-2 per cent; last loan 2 1-4; closing bid and offered at 2 1-4. Flour steady. Wheat firm. Corn steady. Rosin firm. Turpentine quiet. Spot cotton quiet, middling uplands 12.35; middling gulf 12.60; sales 100 bales.

CONGRESS TO TURN ON SEARCH-LIGHT

Will Illumine Dark Deeds of Lobbyists Past and Present

LABOR AND CAPITAL INVOLVED

Senate Investigators to Make Searching Inquiry of Industrial Wars Instigated to Influence Legislation—Many Subpoenaed.

Washington, July 10.—All the wars that have been fought between labor and capital, all the efforts that both have made to secure legislation which would profit them, and the tangled skein woven about their relations in the last ten years are to be investigated by Congress. The Senate lobby investigating committee tonight decided that the wars must be inquired into.

Samuel Gompers, president of the American Federation of Labor, will appear before the committee July 25th and a subpoena was issued tonight for John Mitchell, vice-president of the Federation, and former head of the United Mine Workers.

At the same time the committee subpoenaed George Pope and J. P. Bird, of the National Association of Manufacturers.

As the tale is unfolded, other men prominent in either labor organizations or asosciations of manufacturers or individual employers of labor, who are brought to notice, will be asked to appear. The committee decided to look into this subject, believing that it may develop startling information and knowing it will extend their inquiry many weeks.

One Senator said tonight that the quest might reach back into some of the dark corners of the McNamara dynamiting case, and might bring into the light the inside story of many of the great strikes that have paralyzed industries and thrown thousands out of work in the last few years. He intimated, too, that it might develop by far more marvelous stories than the strange tales the committee has heard in the last six weeks.

The committee expects to finish with its investigation of wool and sugar tomorrow, and will take up the charges made by Martin M. Mulhall, former "lobbyist" for the National Association of Manufacturers. Mulhall will take the stand tomorrow afternoon and his examination may take several days. The committee decided tonight to grant a request from the association to be represented by counsel. It decided also not to turn over the Mulhall papers to the House special investigating committee until it has finished with them, although Chairman Garrett asked for them today.

Chairman Overman heard a report tonight that Mulhall had been told to get out of Washington. Mulhall did not know who made the threat. Mr. Overman said steps would be taken to protect Mulhall, if necessary, by delegating a deputy sergeant-at-arms to guard him.

The Senate committee spent practically all of today on wool. William Whitman, former president of the National Association of Wool Manufacturers; Winthrop L. Marvin, its secretary, and Thomas O. Marvin, secretary of the Home Market Club, all of Boston, were the witnesses.

Thomas Marvin testified that the Home club, with membership of between 800 and 1,000, raised about $17,000 last year, and that its object was to teach the doctrine of protection. It was not a political, but an economic, organization, he said. He testified that the club had sent out in 25 years more that 100,000,000 pamphlets containing protective arguments, but had never used "insidious" or illegitimtae means to influence legislation. He said he received $5,500 a year for his services, and had spent much time in Washington while the present tariff bill was pending. Many members of the club, who are manufacturers, he added, submitted tariff arguments before the Ways and Means and Finance committees.

Senator Reed spent several hours reading into the Record letters and telegrams between Whitman and S. D. North. The letters were written in 1897, when the "Dingley" tariff bill was before the Senate Finance committee, and North, then Secretary of the Wool Association, was acting as clerk to the majority members.

They snowed close relations between Whitman and North, but Whitman insisted there never had been anything improper about North's connection with the Senate committee.

"I believe North was faithful to his trust in the sub-committee," he said, "and I don't believe he ever did anything that the most exalted and high-toned man could take exception to."

Winthrop Marvin appeared with the book of the Wool association, showing disbursements since he became its secretary, but the commitee decided to take them up tomorrow.

MOTORCYCLIST KILLED.

Neck Broken When Machine Skidded From Slippery Track.

Macon, Ga., July 10.—Martin A. O'Brien, a local motorcyclist, was instantly killed here today when the machine he rode in amateur motorcycle race skidded from a slippery track and plunged through a fence into the wall of a building. His neck was broken and his skull fractured by the impact.

The accident, which caused O'Brien's death, was the second which marked his effort to win today's race. Several minutes before at the same place in the course, he was thrown from his motorcycle, but escaped with minor injuries. He immediately demanded another machine declaring: "I'll win this race or break my neck."

O'Brien has been employed for several years as a hatter here.

SIMMONS OPPOSES RUSSELL

Will Fight Confirmation of Laurinburg Man—Russell and Britt Confirmed at Rose Hill and Chadbourn.

(Special Star Telegram.)

Washington, D. C., June 10.—It is pretty well understood her that Senator Simmons will oppose the confirmation of G. H. Russell for postmaster at Laurinburg, should the President send his name to the Senate. Russell was recommended for the Laurinburg job several weeks ago by Congressman Page, but up to the present time his name has not been sent to the Senate. Indeed, it is hinted that Postmaster General Burleson has not yet sent Russell's name to the President.

The opposition to Russell, it is said, is because of some misunderstanding about Russell managing the Simmons campaign in Scotland county during the Senatorial fight. Rusell, the Simmons men thought, was their manager, but it developed that he did nothing more for the senior Senator than cast his vote on November 5th. During the trying times of the campaign the Simmons people say, choice literature from the Simmons headquarters was sent to Russell, indeed it is said, many confidential letters were mailed to the Laurinburg man. They further charge that Russell made a trip of some 20 miles to hear Claude Kitchin speak against Simmons and on another occasion traveled 30 miles to hear Judge Walter Clark deliver an oration against the senior Senator.

Russell admits that he went to hear both Kitchin and Clark speak. He says he was interested in all the candidates and naturally wanted to hear what they had to say. Russell's friends point to the splendid record of the Scotland county superintendent of schools and recall the days when the Populists had things going their way in the State and how Russell, then a small farmer, took the stump and carried the county for Democracy.

Senator Simmons' candidate for the Laurinburg job is A. H. James. A hard fight is in prospect. Representative Page has but one candidate and will stand by Russell. In the meantime, the Republican pnstmaster is drawing good money for handing out mail to a Democratic constituency at Laurinburg.

The Senate today confirmed the nominations of W. G. Fussell to be postmaster at Rose Hill, and F. J. Britt for a similar place at Chadbourn.

Examination for Deputy Collectors.

Some time ago Commissioner of Internal Revenue Osborn requested the Civil Service Commission to hold additional examinations in the Fourth and Fifth Congressional districts of North Carolina for the purpose of securing eligibles for appointment in the Internal Revenue Service.

Col. Osborn was advised today that such examinations will be held at Asheville, Charlotte, Durham, Elizabeth City, Greensboro, Newbern, Raleigh, Statesville, Wilmington and Winston-Salem on August 16th. Those desiring to take the examination should apply to the Civil Service Commission before August 11th.

In a letter addressed to each Congressman and both Senators from North Carolina Commissioner Osborn today said:

"As numerous inquiries have been made relative to appointments in the Internal Revenue Service and as the commissions of deputy collectors of internal revenue automatically expire with that of the collectors by whom they were appointed and commissioned, and it is possible that many new collectors will not desire to re-commission the old deputies, it is suggested that you give this information as much publicity as possible, in view of the fact that virtually all positions in the Internal Revenue Service are within the classified civil service and appointments thereto are made only from the eligible registers of the Civil Service Commission."

Those desiring to serve as deputies as well as all other places under Collector Watts, must take the above examinations. Appointments cannot be made otherwise and it is useless to apply except through the civil service.

P. R. A.

REV. R. L. DAVIS CONVICTED.

Anti-Saloon Leader Found Guilty of Assault With Bottle.

(Special Star Telegram.)

Raleigh, N. C., July 10.—The jury in the case against Rev. R. L. Davis, superintendent of the State Anti-Saloon League, returned a verdict of guilty about 11 o'clock tonight after having been out since noon, standing eight for conviction and four for acquittal.

Mr. Davis was charged with hitting Wiley Straughan with a whiskey bottle. He denied the charge and Detective Green, who was engaged in an altercation with Straughan, swore that Straughan's wounds were inflicted by him with brass knucks.

The court merely received the verdict tonight and will impose whatever sentence there may be later.

Davis defended himself in the police court where probable cause was found. For this trial he retained ex-Judge Biggs. Davis had procured whiskey through Detective Green, presumably from O. G. King's Glenwood Pharmacy, and had indicted the clerk, but the clerk had been acquitted, when friends of the clerk attacked the detective who had sworn that he had bought the whiskey from King's store for Davis, King being in the midst of his successful campaign for the public safety commissionership. When the detective was attacked by Wiley Straughan, Davis is charged with having rushed in with the bottle of whiskey and struck Straughan. Now the detective testifies that Straughan's injuries came through his use of brass knucks on him. Today he submitted to the charge of carrying concealed weapons and is being fined.

Asheville, N. C., July 10.—Secretary of State William J. Bryan will lecture on "Universal Peace" at the Hendersonville chautauqua next Sunday afternoon. DISCUSS PENDING FEDERAL MEASURES

Wilmington Chamber of Commerce Endorses Currency Bill

PANAMA EXPOSITION HERE

Important Meeting of the City's Business Men Held Yesterday—New York Man Proposes Canal Celebration.

Approval of the proposed currency legislation in its main principles, condemnation of the proposed tax of one-tenth of one cent a pound on cotton future contracts, endorsement of the Maxwell plan to secure lower freight rates and a declaration for the continuation of the Commerce Court featured what was one of the most important meetings the Wilmington Chamber of Commerce has held, yesterday afternoon in the assembly room of the Chamber.

And on the heels of the conclusion of the consideration of these affairs of National interest came a proposition from Mr. A. H. Stoddard, of New York, that a Panama Exposition, or a celebration of the completion of the Panama Canal, be held at this place in 1916, this being the most logical place for an Eastern celebration to match the one to be held on the west coast at San Francisco in 1915.

Mr. Stoddard, who formerly lived here, accompanied by Mr. J. S. Chambers, of New York, appeared before the Chamber for the purpose of bringing to the attention of Wilmington business men the great celebration which New York will hold next year to celebrate the 300th anniversary of the beginning of Manhattan's commercial development. He has visited Chambers of Commerce throughout the country and officials of importance in all the large cities of the Nation, for this purpose, inviting States to make exhibits and to take part in the commemorative exercises of the occasion.

The celebration appeals to the Nation, he pointed out, for the beginning of the commercial importance of New York was the genesis of the commercial development of the United States.

Following his remarks on this subject, he sprang the proposal that an Eastern Panama Canal celebration be held here, within six months after the 'Frisco affair of the same kind. It is keenly realized, he said, that the East should have such an exposition, and he declared that situated right on the highway to Panama, with 50 millions of people within a night's ride of this city, Wilmington and North Carolina presented the logical location for the exposition.

Committee to Consider It.

He fairly took the breath of his auditors as he amplified his proposition, and asked that a committee be appointed to decide whether or not the idea appealed to the business people of Wilmington. There was quite a bit of discussion as to whether the city and State could negotiate such a large order. Mr. J. Allan Taylor was decidedly of the opinion that the plan was preposterous—a physical impossibility. Others shared his idea. But Mr. Chas. N. Evans urged that whether the city undertook the plan or not, it would do no harm to have a committee give it a threshing out. There was no opposition to this and President M. J. Corbett thereupon appointed the regular entertainment committee composed of Messrs. J. VanB. Metts, Hugh MacRae, J. W. Yates, T. H. Wright, W. D. MacMillan, Jr., and W. A. French, Jr.

Mr. J. Allan Taylor submitted the resolutions that had been prepared on the various subjects of currency legislation, cotton futures bill, the Maxwell plan and the Commerce Court. The resolution endorsing the currency bill was adopted after a brief discussion; and the Maxwell resolution and the one on the Commerce Court went through without discussion, but while no opposition was voiced, the resolution on the cotton future contract bill was discussed at length.

The Currency Bill.

The currency subject was discussed in the main by Mr. Taylor and Mr. H. C. McQueen. The latter pointed out that while the member banks in the regional bank would be required to invest one-fifth of their capital in regional bank stock, they would be limited to 5 per cent dividends thereon, and as in Wilmington there is a tax of 3 per cent on bank stock, this would leave a National bank in this city but 2 per cent net on its investment. He said the holdings of member banks in the regional bank should be exempt from taxation. This idea was then embodied in the resolution and the following was adopted:

"The Wilmington Chamber of Commerce is heartily in accord with the purposes of the Glass-Owens currency bill, and endorses in the main its principles and provisions.

"In its judgment the Federal Reserve Association, while eminently sound as a dominant control, should be representative of the banking interests in a reasonable degree, and the bill is endorsed with the suggestion that the regional banks recommend the appointment of two of the members of the Federal Reserve Association, which shall be binding on the President; and that the holdings of the member banks in the regional banks be exempt from taxation.

"Resolved: That a copy of this resolution be sent to the Senators and Representatives of this State, with the request that they use their best efforts to pass the bill at the extra session of Congress."

Cotton Future Bill.

The attitude of the Chamber on the proposed tax of one-tenth of one cent per pound on cotton future contracts was that if enacted into law, it would destroy the cotton exchanges of New

GIANTS LONG STRING BROKEN

Defeated for First Time in Sixteen Days by Cubs—Reconstructed Phil Team Lost—Braves and Yanks Winners.

Within one game of the season's record for consecutive wins set by the Athletics, the Giants' wonderful string of 14 straight victories from the Braves, Athletics, Dodgers and Cubs was neatly clipped in two by Johnny Evers' star aggregation yesterday afternoon. And to add to the humiliation of the Giants, the peerless Mathewson was the veteran on the mound who is chargeable with the defeat.

The Cubs now are within three and a half games of the Phillies, and Evers, as well as Bresnahan, his right hand man, are confident of displacing them within a week.

In an effort to stop their downward slide, Manager Dooin put a reconstructed team of Phillies in the field yesterday, composed mostly of substitute players, acknowledging thereby the utter demoralization of his regular line-up. The change worked to no advantage for the Quakers, however, the Pirates winning the game 3 to 2.

The Cincinnati Reds doubled every run by the Brooklyn Dodgers yesterday, and won the second game of the series, 10 to 5.

The Boston Braves took their fourth straight game yesterday, defeating the St. Louis Cardinals 3 to 1. A one-handed catch by Connelly i the initial inning was the leading feature of the game.

Giants' String Broken.

New York, July 10.—Chicago broke New York's winning streak here today, the Champions dropping a close game 3 to 2. Prior to today's game New York had won 14 straight games while Mathewson was stopped today after winning seven straight. Smith was ably assisted by his support. The Cubs won in the sixth on Miller's triple, which scored two.

Chicago .....010 002 000—3 9 0
New York .....000 110 000—2 10 2

Smith and Bresnahan; Mathewson and Meyers and Wilson; time 1:45; umpires Rigler and Byron.

Phillies Lost Another.

Philadelphia, July 10.—A re-constructed team of Philadelphia players, composed largely of substitutes, gave Pittsburg a hard battle here today, bust lost the game 3 to 2. Chalmers was touched up for four hits in the first inning. McQuillan was hit hard, but was given brilliant support.

Pittsburg .....201 000 000—3 4 0
Philadelphia ....001 000 001—2 10 2

McQuillan and Simon; Chalmers and Howley and Killifer; time 1:45; umpires Brennan and Eason.

Braves' Fourth Straight.

Boston, July 10.—Boston won its fourth straight game from St. Louis today 3 to 1. The contest was a pitchers' battle between Perdue and Harmon. The locals' profited by St. Louis' errors. A one-handed catch of a low liner by Connelly in the first inning was a feature.

St. Louis .....000 000 100—1 6 3
Boston .....110 001 00x—3 8 1

Harmon and Wingo; Perdue and Rariden; time 1:45; umpires Klem and Orth.

Rucker Goes Up Again.

Brooklyn, July 10.—Brooklyn lost its eighth traisght game today and dropped into the econd division. The Cincinnati team knocked Rucker and Wagner out of the box, besdes using up Hall and Kent. Brown held the locals hitless until the fifth. The score was 10 to 5.

Cincinnati .....050 030 200—10 13 1
Brooklyn .....000 201 110— 5 11 1

Brown and Kling; Rucker, Wagner, Hall, Kent and Fischer; time 1:45; umpires Quigley and Emslie.

MARIGOLD WINS STAKE.

Big Event of Grand Circuit Racing in Straight Heats.

Cleveland, O., July 10.—With apparent ease Marigold, Rodney driving, carried off the Ohio stake in today's big event of the Grand Circuit racing in straight heats. The veteran Pop Geers, who until today had not won a heat, took first in the championship pacing sweepstakes and the 2:15 trot. Stetbrino Lad, a strong favorite in the 2:14 pace, took the event in straight heats.

The biggest field that has faced the starter so far scored for the $5,000 Ohio take for 2:10 trotters. A dozen horses were given the word for the first heat, which Marigold won two lengths ahead of Tommy Horn, the favorite. In the second heat Tommy Horn got away in front, but Marigold won handily. The third heat was a repetition. "Pop" Geers, the dean of Grand Circuit reinsmen, landed his first heat winner in the meeting in the 2:15 trot.

The crowd cheered loudly when Geers farly lifted Bertha Carey under the wire a winner.

—Sergeant H. W. Howell and Officer S. H. Fulford of the police department, begin their annual vacation of 10 days today. Officers B. W. Jacobs and M. C. Gray, who have been off for 10 days, will resume their duties today.

WITH THE MOVIES

Today at The Bijou

The popular Bijou is certainly humming along in a blaze and also breeze of glory these days, because the shows are big and bright and the theatre is kept at a low temperature by many electric fans, augmented by two large suction fans, which furnish fresh air. The tiny price of admission, 5 cents, afternoon or night, is also a big drawing card. Today's Bijou programme will be headed by a circus film that is superb for laughs, Kalem's "The Rube and the Boob," and everyone likes a story of the saw-dust arena and the big menagerie. One of the most stirring of dramatics is the Biograph's "Olaf-An Atom," which is a strange story of a strange people, vividly, thrillingly told. There is another big dramatic on today, a hair-raising one, in Pathe's "The Fugitive." It is a tale of both city and Western life.

At The Grand

The Grand will top the swell and big bill it will offer today for the immense delectation of amusement-lovers by a special two-reel release film, Pathe's most masterly and magnificent effort in the way of moving pictures. It is entitled, "The Human Vulture," and is a story as gripping as its name implies and that will hold the intense interest of all. It is a story of a band of kidnappers, headed by Louis Fox, a master criminal, and it is filled with thrilling incidents. It is also a story of mystery, which will add greatly to the novelty and fascination. Grand devotees should not miss beholding this two-reel release masterpiece, and particularly as the price of admission will not be advanced, being still 5 cents, afternoon and night. Another great film on today at The Grand is Essanay's "The Western Law That Failed," which is decidedly clever.

MACK'S MAGICIANS DROP ONE

Naps Took Second Game of Series 4 to 1—Senators Lost to Detroit—"Rube" Foster Won for Boston—Yanks Took One

The Connie Mack Company, expert magicians and legerdemain operators, who have been making one, two, three and four-day stands throughout the American League circuit since April, making fame for themselves by their expert ability to juggle baseball games and produce hits, runs, victories, etc., at will and without any apparent excuse for same, were not forthcoming with the usual line in yesterday's game with the Cleveland Naps and were exposed to a large Cleveland audience in the second game of the series. Cy Falkenberg, the noted comeback of the Naps, proved the undoing of the Athletics, outpitching the veteran Eddie Plank at every stage. The visitors from the City of Brotherly Love barely escaped a shut-out when McInnis scored their only run of the game.

The Washington Senators lost a hard-fought game to the Detroit Tigers by a two to four score. Hall, for Detroit, pitched a remarkable game, while Hughes, for the Nationals, was unsteady, two passes in the first inning giving the Tigers a three-run lead to start with.

"Rube" Foster, the Sensational young twirler of the Boston Red Sox, was too much for the Browns, and Boston won the second game of the series, six to two. The young right-hander pitched a no-hit game up to the ninth inning, letting two singles slip in in this frame.

Chance's New York Americans won their first victory at Chicago from the White Sox, Chance's old team, yesterday afternoon. Warhop, the diminutive twirler of the Yankees, allowed the home team only three scattered hits.

Athletics Dropped One

Cleveland, July 10.—Cleveland defeated Philadelphia 4 to 1 today. Falkenberg outpitching Plank and Houck. The hitting of Ryan and Carisch were features. Philadelphia escaped a shut-out in the ninth when McInnis scored on his single, two outs and Lapp's double.

Cleveland .....110 000 02x—4 9 1
Philadelphia .....000 000 001—1 7 1

Falkenberg and Carisch; Plank, Houck and Lapp. Time 2:20. Umpires, McGreevy and Connolly.

Senators Outhit But Lost

Detroit, July 10.—Although outhit today Detroit defeated Washington in a splendidly played game 4 to 2. Hall pitched great ball, striking out ten men and giving only one pass. Hughes was unsteady, especially in the first inning when two of his bases on balls developed into runs.

Washington .....000 101 000—2 8 1
Detroit .....300 000 01x—4 5 0

Hughes and Henry; Hall and McKee. Time 1:45. Umpires Hildebrand and O'Loughlin.

"Rube" Foster "There"

St. Louis, July 10.—The pitching of "Rube" Foster was too much for the home team and Boston won from St. Louis today 6 to 2. The young right-hander did not give a hit up to the ninth inning before which but one man reached second vase.

Bunched hits in four innings netted the visitors their scores.

Boston .....200 002 101—6 11 2
St. Louis .....000 000 002—2 2 3

Foster and Thomas; Baumgardner and Agnew. Time 1:45. Umpires, Egan and Dineen.

Chance's First Chicago Win

Chicago, July 10.—Manager Chance won his first game in Chicago today as head of the American League club of New York, which defeated Chicago 2 to 1. Warhop allowed the home team but three scattered hits. Spectacular fielding of Weaver and Chase aided in keeping down the score on several occasions.

New York .....010 001 000—2 9 1
Chicago .....010 000 000—1 3 1

Warhop, McConnell and Smith; Russell and Schalk. Time 1:35. Umpires, Evans and Sheridan.

INTERNATIONAL TENNIS.

Americans Take Two Matches in Semi-finals Over Germans.

Nottingham, Eng., July 10.—The American players won their first two matches today against Germany in the semi-final round of the preliminary contests for the selection of a team to challenge England for the Dwight F. Davis International Lawn Tennis trophy, and stand more than a good chance of qualifying for the final round.

R. Norris Williams, of Philadelphia, and Harvard University, after a little trouble in the beginning of his match with Oscar Kreutzer, and the loss of the third set, pulled out a winner in what after all was not a difficult contest.

The more exciting match was that between Maurice E. McLoughlin, of San Francisco, the American champion, and Otto Froitzheim, who is rated as the best player in Germany. The contest for a time seemed to be all the Germans. Froitzheim played brilliant tennis, although he was suffering from a sore hand. McLoughlin did not show his form until the later stages.

In the beginning the German was able to get many back hand strokes over with great speed, and also picked up the American's service coolly. McLoughlin showed a streak of brilliancy in the second set, but not until the middle of the third set did his turn in the game come. From then on he went ahead and with his famous service and finely placed drives wore his opponent down. The weather cleared after the first match. The attendance was about 1,200.

BASEBALL FRATERNITY.

Sixteen Players of the American League Join.

New York, July 10.—Sixteen members of the Cleveland Baseball Club of the American League today joined the Baseball Players' Fraternity. This gives the fraternity representation in every club of the two major leagues, and a membership a trifle in excess of 400.

WOMEN ON SCHOOL BOARDS

Wake County Now Has Four as Members of Committee—New Court House to be Built.—Other Notes.

(Special Star Correspondence.)

Raleigh, N. C., July 10.—The Wake County Board of Education has taken the lead for North Carolina in the matter of the appointment of women on the local school boards under the authority of the special act of the last Legislature authorizing the membership of women for these boards and committees. Wake now has four women just appointed.

They are Mrs. B. W. Burt, Holly Springs township; Miss Lizzie Smith, House Creek township; Mrs. L. L. Doub, Mark's Creek township, and Mrs. J. C. Pool, St. Mary's township. These ladies have proven in the past their effective activity and capacity for promoting the interests of the schools.

The Wake County Commisioners are proceeding with their plans for the purchase of a suitable farm close into Raleigh for a new county home that shall be equipped with central heating plant and other comforts for the aged and indigent poor, the present county home and farm to be sold. The Commissioners are proceeding also with the plans for a new $200,000 county Court House over the protest of J. W. Bailey and others, who insist that no such expenditure should be made when the county actually owes for the present Court House that will be torn down, and for the one that preceded it. A vote of the people is being demanded by Bailey, but the Commissioners have authority to issue bonds and build without a vote of the people and the members will persist in this course.

The Council of State is to award the contract July 21st for the complete remodeling of the old Supreme Court building as soon as the State officers, who are to have quarters in the new fireproof building, vacate. The remodeling is to cost about $40,000 and is to equip the place for the Corporation Commission to occupy the street floor; the Department of Education and the Commissioner of Labor and Printing on the second floor; the Department of Insurance on the third, and the State Board of Health on the fourth. Starting on the basement floor there is to be constructed through the five floors a series of fireproof vaults for the use of the several State departments to protect books and other records. It is hoped to have the building vacated ready for the remodeling to begin in the early Fall.

Judge James S. Manning has purchased a lot on North Blount street and will erect thereon a handsome residence. His family will not come from Durham to Raleigh to live until the Blount street residence is completed. Ex-Governor Kitchin, his law partner, has purchased the handsome residence of the late Capt. J. J. Thomas, at the corner of McDowell and Jones streets, and his family will come to Raleigh from Roxboro in the early Fall.

The Seaboard and Southern authorities, in a conference with the Corporation Commission today, agreed upon a schedule for assuring connetions between the Seaboard southbound and the Southern westbound trains that are due to arrive in Raleigh at 4:05 P. M. Under the new agreement either train will wait on the other as much as 10 minutes, if there is notice that there are passengers who want to make the connection.

Governor Craig announces a reward of $50 for Henry Jenkins, who is wanted for the murder of J. T. Glenn on the night of June 26th, in Wake county. Glenn was a well known white man and Jenkins a negro, and a shovel was the implement used. The men had quarreled at a saw mill and the negro followed the white man after he left the mill to commit the fatal assault.

HOME-MAKERS' WEEK.

Last Days State Normal Summer School to be Observed.

(Speeal Star Correspondence.)

Greensboro, N. C., July 10.—The last days of the Summer school of the State Normal and Industrial College will be known as Home-makers' Week, and President Foust has sent out letters to county superintendents and school principals urging them to have their counties well represented at this conference.

The work will be along lines of educating the women in better methods of community and civic welfare. Superintendent O. J. Kern, of Winnebago county, Illinois, will be here a whole week, to assist the faculty. He is one of the best known superintendents in the country. Another letter has been written to leading women of the State, calling their attention to this work and informing them that Mrs. Calvin, already well known to the women of the State, will also be present.

The postoffice receipts at Greensboro for the fiscal year from June 30th, 1912, to June 30th, 1913, inclusive, were $102,801.49 as compared with $89,768.36 for the preceding fiscal year. This is a gain of more than 14 per cent. When the receipts reah $110,000 the postmaster's salary will be increased $100.

RECOMMEND AMENDMENT.

Bankers in Sesion Favor Change in Currency Bill.

Asheville, N. C., July 10.—Following the declaration of Charles Hall Davis, of Petersburg, Va., that the passage of the currency bill as proposed will be nothing short of a calamity, the North Carolina Bankers' Association, at its final session of the 17th annual convention, this afternoon adopted a resolution recommending the enactment of an amendment which will meet the demands and the requirements of the agriculturists.

The following officers were elected at the final session:

President, George A. Holderness, of Tarboro.

First Vice President—Thomas E. Cooper, of Wilmington.

Second Vice President—J. L. Armfield, of Thomasville.

Third Vice President—W. S. Blakeney, of Monroe.

Secretary and Treasurer—W. A. Hunt, of Henderson, re-elected.

STATE BOARD OSTEOPATHY

Examining Applicants at Raleigh for License to Practice

(Special Star Telegram.)

Raleigh, N. C., July 10.—The State Board of Osteopathy is here examining a number of applicants for license to practice, Dr. A. R. Zealy, of Goldsboro, being the chairman, and the other members are Dr. E. J. Carson, Fayetteville; Dr. W. B. McEachern, Asheville; Dr. J. M. Carson, Rocky Mount, and Dr. A. R. Tucker, Raleigh.

The State Association with about 40 members, convened in Raleigh Saturday.

STATE BANKERS ADJOURN

Mr. T. E. Cooper, of Wilmington, Is Elected Vice President

(Special Star Telegram.)

Asheville, N. C., July 10.—The State bankers in session here spent the busiest day of their convention, winding up the affairs of the association, electing officers, George A. Holderness, of Tarboro, being chosen as president, and closing with a banquet tonight, tendered by local bankers, which was one of the most enjoyable features of the convention.

The feature today was the address of Senator Fletcher, of Florida, who spoke on "Agriculture Must Have Consideration in Currency Reform."

In the afternoon Charles H. Davis, of Virginia, declared he feared that the currency bill pending would be the rock on which the Democratic party would fall, as it did not provide sufficiently for the farmers.

The officers and executive committee slated by the nominating committee last night, were confirmed this afternoon and were installed. They are as follows:

George A. Holderness, Tarboro, president.

Thomas E. Cooper, of Wilmington, first vice president.

G. L. Armfield, of Thomasville, second vice president.

W. S. Blakeney, of Monroe, third vice president.

The executive committee is E. C. Rea, of Edenton; T. A. Uzzle, of Newbern; W. B. Drake, of Raleigh, to fill the unexpired term of Henry E. Litchfield; A. L. Davis, of Burlington; I. F. Craven, of Ramseur; E. S. Anderson, of Charlotte. Retiring President Covington is ex-officio member.

Most of both sessions was taken up with an agricultural conference, the address of Senator Fletcher bearing directly on this. Senator Fletcher insisted that in the currency reform, provision should be made to accommodate farmers as has heretofore been made for the merchant and manufacturer. Then there was a lively discussion of banking matters in general but with special reference to financing the farmer, and the new currency bill.

Several speakers expressed the opinion that the bill would not be satisfactory and J. Elwood Cox, of High Point, introduced a resolution that the association favor such provision in the currency bill as will meet the requirements of agricultural interests, and there was a resolution adopted from resolutions committee to the effect that the currency system should give every part of the country the same advantages.

Greetings were brought by Mr. Rogers from South Carolina; by V. Vaiden, from Virginia; by McLain Tilton, from Alabama, and by B. F. Harriss, from Illinois.

CAROLINA BEACH NEWS

Improvements Going on and Visitors Coming and Going

(Special Star Correspondence.)

Carolina Beach, N. C., July 10.—The ocean has been fine for bathing of late and many there were who enjoyed the surf. There was a big crowd on the Fourth, which was very safe and sane here. Improvements are going on right along.

Messrs. A. W. Pate, J. J. Loughlin and J. M. Connelly are building and remodeling cottages.——Mr. J. E. Hayes and children, of Marion, S. C., came down Saturday.——Mr. J. F. Boyd, of Hamlet, moved in on the 2nd inst.

Mr. Sam A. Lewis, our jovial justice, is on the warpath for offenders but is rather inclined to have them settle their difficulties outside the law.

Carolina Beach needs better mail facilities. We feel like calling up Postmaster Green and asking him to "Come over in Macedonia and help us."

We feel like getting Ben Tillman's pitchfork after our good County Commissioners and the New Hanover Transit Co., on the subject of a hard road and the trolley line. We need help and need it now.

Messrs. J. A. Gillerlain, C. K. Meier, C. C. Davis and J. C. McCartney were pleasant callers at Carolina Inn Saturday night.

I see in your last issue something new under the sun—the Wilmington Development Co., talking of doing big things. Let 'er roll. The old eagle tears up her nest to make the young eagle fly. Let Wilmington tear up her nest and spread out to the ocean. Then Wilmington will be the biggest city in North Carolina. Come on, Carolina Beach will meet you half way.

UNIVERSITY FACULTY CHANGES.

Executive Committee Elects a Number of New Teachers.

(Special Star Telegram.)

Raleigh, N. C., July 10.—The executive committee of the University of North Carolina directors in session here today, elected A. B. Greenlaw, of Western University, professor of English, to succeed Prof. T. P. Cross, who has gone to the University of Chicago; Prof. Z. V. Judd, superintendent of the Wake county public schools, as professor of Rural Education; Prof. M. H. Stacy was designated as dean of the faculty during the absence of President Venable in Europe; Prof. E. K. Graham being acting president; and named Miss Richardson as assistant librarian.

Additional apparatus for Civil Engineering, Electrical Engineering and Zoology were provided for. Also improvements in the water supply and the equipment for baths.

WILMINGTON BEACH CO

Incorporated Yesterday to Establish New Seaside Resort

(Special Star Telegram.)

Raleigh, N. C., July 10.—A charter is issued today for the Wilmington Beach Corporation, capitalized at $50,000 to develop a stretch of beach on the Atlantic ocean just below the present Carolina Beach. The incorporators are L. W. Davis, J. J. Hopkins, C. C. Chadbourn, C. E. Greenamyer and D. N. Chadwick, Jr.

The company has authority to carry on all kinds of development enterprises, including hotels and places of amusement.

Freckle-Face

Sun and Wind Bring Out Ugly Spots —How to Remove Easily

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength—from your druggist, and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

SEGREGATING THE RACES

Farmers' Union Urges Negroes to Settle in Own Communities

(Special Star Correspondence.)

Raleigh, N. C., July 10.—Chairman Clarence Poe announces that the programme committee of the National Farmers' Union has asked local unions at their next meeting to discuss the problem of segregating the races in the South's rural districts as is already the policy in the towns. It is asserted that thousands of white farmers are being driven from their homes by the growing number of negro farmers around them and the consequent lack of adequate white social life. The hope is to develop a public sentiment which will require negroes to buy land in communities to themselves instead of breaking up white communities by indiscriminately sandwiching white and negro farmers together. In discussing the matter further, Mr. Poe said:

"For the good of both races, the negroes should buy land and settle as largely as possible in neighborhoods of their own. For example, fifty negro families and fifty white families together in a district can have only half as good schools for either race as they could have if all the hundred families were of one race; and with regard to churches, libraries, cooperative societies, social meetings, and nearly all other agencies of vital civilization the same thing is true. To have half the community composed of a separate race cuts in half all the social power for progress.

"The big fact we have to face is that in thousands and thousands of communities in the South, the negro farmers are not only subjecting the white farmers to more or less disastrous economic competition by their lower standards of living, but in many sections the growing number of negroes is driving the white people to the towns for social reasons. When the white population in a community becomes too small or too scattered, when the white farmer's wife and children find more negro neighbors than white neighbors around them, a tremendous motive is given for moving away—and if the farmer moves some negro will probably buy his land at a sacrifice because other white farmers have the same feeling and do not care to buy land in a predominatly negro community. Such is the negro's flagrantly unfair advantage for driving white people off the farms and taking the rural South for himself. Public sentiment must find us a remedy."

GRAND MILITARY BALL

Officers of National Guard Will Dance at Morehead City

(Special Star Correspondence.)

Atlantic Hotel, Morehead City, N. C., July 10.—Next Saturday evening the 12th, the officers and the "noncoms." of the North Carolina National Guard will participate in the annual military ball in the ballroom of the Atlantic Hotel.

This is a social event that is looked forward to with keen anticipation by the officers of the State troops which come to Camp Glenn at this place every year. This year the dance promises to be unusually brilliant. The grand march will be led by Mr. W. Fenner, of Rocky Mount, than whom none is more capable of guiding the couples through the mystic mazes of terpsichorean enjoyments.

SCHOONER JOSEPHINE STRANDED

on Beach Near Portsmouth, N. C.—In No Immediate Danger

Beaufort, N. C., July 10.—The four-masted schooner Josephine, lumber-laden, bound from Philadelphia for Key West and Tampa, Fla., is ashore on the beach at Portsmouth, N. C. The sea is very smooth and with the lifesavers standing by, the vessel is believed to be in no immediate danger and Captain Megee and his crew of eight men are still aboard. The Josephine, which sailed from Philadelphia July 2nd, stranded some time last night.

ARGUMENT IN PREVATT CASE.

Will Begin This Morning at Lumberton—Testimony In.

(Special Star Telegram.)

Lumberton, N. C., July 10.—In the Prevatt trial, going on here, in which the defendant is charged with killing Emory McNeill last March, the defense closed its testimony this evening at 6 o'clock. A session was held tonight at which the prosecution introduced some rebuttal evidence. Argument will begin tomorrow morning when court convenes at 9 o'clock, and it is expected now that the case will go to the jury tomorrow evening.

Grandma Talks About Babies

Has a large Circle of Listeners Who Profit by Her Wisdom and Experience.

In almost any settled community there's a grandma who knows Mother's Friend. Not only is she reminiscent of her own

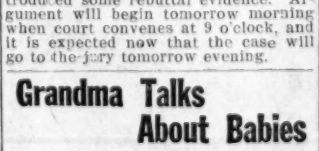
experience, but it was through her recommendation that so many young, expectant mothers derived the comfort and blessing of this famous remedy.

Mother's Friend is applied externally to the abdomen, stomach and breasts, allays all pain, avoids all nausea, and prevents caking of the breasts.

It is quickly and wonderfully penetrating, permits the muscles to expand without the strain on the ligaments, and prepares the system so thoroughly that the crisis is passed almost without the slightest distress. Thus there need be no such thing as dread or fear.

No better nor more cheering advice can be given the expectant mother than to suggest the use of Mother's Friend. She will take courage from the beginning. The days will be cheerful, the nights restful. Thus the health is preserved, the mind is in repose and the period is an unending one of quiet, joyful anticipation.

You can obtain Mother's Friend of any druggist at $1.00 a bottle. Do not forget nor neglect to be supplied with this greatest remedy ever devised for motherhood. It is unfailing. Write at once to Bradfield Regulator Co., 133 Lamar Bldg., Atlanta, Ga., for their very interesting and instructive book of advice for expectant mothers.



ELON COLLEGE
FOR MEN AND WOMEN
CHARACTER — HEALTH — CULTURE

Lowest rates in the South. Delightful location. Deep well water. Twenty-four years without a single case of dangerous sickness. Clean athletics. Two gymnasiums. No hazing.

Schofield Engines
Less Steam—Longer Wear

For sixty-seven years we have been manufacturing and perfecting Engines. None can surpass the high-grade service the Schofield Engines render today.

Every engine heavily constructed with proper distribution of metal, which prevents strain where wear comes. Built for heavy duty, and particularly adapted for saw mills, oil mills, cotton gineries, or any place engines can be used.

All sizes, Center Crank type—12 horse power to 100 horse power—side crank type—50 horse power to 150 horse power. Also manufacture boilers, tanks, towers, smoke stacks, saw mills, and all kinds of machinery—mill supplies, pipe galvanized roofing, Gas engines.

THE MORNING STAR

Published by the
WILMINGTON STAR COMPANY, INC.,
Wilmington, N. C.

Entered as second-class matter at the postoffice at Wilmington, N. C., under Act of Congress, March 2nd, 1874.

FULL ASSOCIATED PRESS REPORT

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily except Monday, at $6 per year, $3 for six months; $1.50 for three months; 50 cents for one month, served by carriers in the city, or by mail.

THE SUNDAY STAR, by mail, one year, $1; six months, 50 cents; three months, 25 cents.

ADVERTISING RATES may be had on application, and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards of thanks, communications espousing the cause of a private enterprise or a political candidate, and like matter, will be charged at the rate of 10 cents per line to persons carrying a regular account, or, if paid cash in advance, a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, excursions, society meetings, political meetings, etc., will be charged under the same conditions, except so much thereof as may be of news value to readers of the paper, in the discretion of the editors.

TELEPHONES: Business Office, No. 51; Editorial and Local rooms, No 61. Call either, if the other doesn't answer.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and if acceptable in every other way, they will invariably be rejected unless the real name of the author accompanies the same, not necessarily for publication, but as a guarantee of good faith.

ALL DRAFTS, checks, express money orders and postal money orders for the paper should be made payable, and all communications should be addressed to,
THE WILMINGTON STAR CO.,
Wilmington, N. C.

Friday, July 11, 1913.

Quite a number of "hummers" are humbugs.

Some people and institutions ought to be investigated before they get busy.

The man who finally tells the truth knows he will be caught in a lie if he tries to prove an alibi.

Have you made up your mind to have a band box bungalow somewhere on the seashore near Wilmington.

Typographically speaking, M. M. Mulhall is the guy who made the 3-M dash before the Senate Lobby probers.

During hot weather men ought to wear bloomers instead of being encased in pants that resemble a forked sack.

Dress is a mere conventional adaptation to the customs of a people. A dude in the Fiji Islands can stick a postage stamp in the middle of his forehead and be the envy of all the fellows in the woods.

Nobody would ever think of putting a duty on advice, but many persons consider it their duty to give it, even to the extent of recommending a remedy for rheumatism and soft corns. Advice will continue to remain on the free list.

If the poll tax in Illinois is $1 a head, the enfranchisement of 1,600,000 women folks will increase the revenue to the extent of $1,600,000. State officials who create deficits in the average State treasuries have another source upon which to draw for money.

Says the Norfolk Virginian-Pilot: "A movement has been inaugurated in Columbia which has for its object the establishment of a zoological garden in South Carolina's capital city." That will be an improvement over the "parrot and monkey show" that is pulled off so often in Columbia here of late.

The sand-clay road seems to be coming into its own. So far as road building goes, the shell rock of New Hanover is without a rival when a road is properly built and correctly surveyed. The Star has hammered on the anvil numerous times to emphasize the fact that the chief economic feature in constructing a permanent highway is good engineering.

Senator Simmons "turned the trick" on the Republicans by getting hold of Senator Smoot's analysis of the Democratic tariff bill as it has been agreed upon in caucus. Since Smoot had something to do with it, his name is enough to arouse suspicion that he might have prepared one analysis so the Democrats could find it, and prepared another one to be sprung in debate.

Chicago has a college in which to train women orators. We presume, of course, that all the college can teach is along dramatic lines and enunciation. So far as vocabulary, pungency and epigramatic versatility goes, the average woman can teach all orators something that not one in a thousand male orators possesses. Women also have the advantage of saying just what they think, while the average man speaker is a trimmer and sidestepper when it comes to speaking in public, unless he finds out what the crowd thinks.

LET'S HAVE PEACE

It is unfortunate, to say the least, that in a department of governmental activity so vitally important to every citizen as the public health service, there should be any friction at all; and the constant discord and frequent clashes of those in authority in various capacities ever since the present municipal administration and County Board of Health took hold of the reins, is to be deplored. We are viewing the whole situation from the standpoint of the public good, without reference to individuals or as to who is right or wrong, the County Board of Health or Council. The citizens of this city have a right to ask that the energies of every department of the government be directed entirely toward the public good and that there be harmony and cooperation among those in whose hands the public affairs of the community have been placed.

Good men in their zeal for doing their duty as they see it may be led into a situation where they may have nothing else in common except their zeal for doing their duty, with disastrous results to the very thing they labor for—the public good. But it is possible for men of intelligence to give and take in their dealings with each other, in public and private capacities, to cut out petty personalities and wrangles, and get down to brass tacks.

Harmony, economy and efficiency are the three things that this city just now needs in its government, and with the very capable men the citizens have selected for the administration of affairs, we can see no reason why this need should not be completely satisfied to the fullest degree.

The basic idea of a commission form of government is the attainment of these three essentials. It aims at the elimination of conflicting interests and politics, at the curtailment of expenditures and the certainty of receiving full value for every dollar expended; together with a measure of efficiency that runs as close to one hundred per cent fine as it is possible to attain. If the system fails of these attainments, it is no improvement on the outworn form of municipal government that has made American cities the worst governed communities in the world. Americans have succeeded with the experiment of a National government by the people, but they have utterly failed to make good in municipal government. Of late years a few cities have worked out a commission form successfully, but many others have even failed at that.

A fruitful source of trouble is the division of authority among too many officials. There are too many heads. Sometimes we are able to look with a degree of favor on a limited monarchy—not too blooming limited, either—where a central power speaks and the thing is done without perennial objection, controversy and the resultant loss and waste of time, energy and public cash.

Wilmington has selected thoroughly capable men to administer the government of the city, as has the county, and they in turn have selected subordinates whom they believe capable to look after details in a satisfactory way. We respectfully commend to them all the idea of putting an end to discord, particularly in the department of health—the Balkans of the city.

MEMPHIS TO HAVE A PACKING HOUSE.

Announcement is made that the Cudahy Packing Company, of Chicago, one of the largest meat handling concerns of the world, has decided to establish a modern packing house at Memphis. This means stock yards, slaughter houses, canneries, sausage factories, cold storages, and all the features connected with the commercialized handling of cattle and other meat animals.

"Memphis Commission Government," the official magazine of the city and a highly creditable publication at that, says the Business Men's Club has secured this Cudahy enterprise "after years of endeavor." We read between the lines that those who are working for Memphis don't give up but keep right on till they get what they are after. If they do not succeed right away they work right on with the determination to get what's coming to those who "keep everlastingly at it." Commission Government, referring to the Cudahy plant, says:

"In addition to a large compounding plant for the manufacture of lard compound, a killing plant of considerable size will be established and the plant will be enlarged as the demand justifies. The building of a packing plant at Memphis opens the way for the farmers of this territory to enter the cattle raising business on a big scale. This has been deemed impracticable heretofore because of the great distance to a market, which rendered hog and cattle raising unprofitable. The situation was peculiar in that the big packers could not be interested because there was not enough meat raised and the farmers could not be interested because there was no packing house. The Cudahy plant will be located on Warford avenue and the Illinois Central Belt line. The immediate investment will be approximately $250,000, with the probability that this will be doubled within the next few years."

The Memphis packing house will furnish a new market for Southern cattle. There can be no surer means of developing the stock and cattle raising industry in the South and we hail the new enterprise as the first step towards making the South a meat producing country, as it ought to have been all along. Those who live to see the day that the cattle tick is eradicated everywhere in the South, will see packing houses go up in every State on the South Atlantic and middle Mississippi river States. We are bound by all the force of logic to develop the cattle and dairy industry in these States that are so conspicuously adaptable to the industry. The Cudahy Company is the pioneer in bringing the packing house business to the country where cattle can be raised and cared for more economically than in any other portion of the country.

The opportunities of the South are broadening every day, and its vast resources are beginning to be utilized along all lines. These resources, many of them actually untouched, simply are awaiting capital for their development. The South is the richest and most productive agricultural region of America, and it is fast developing into one of its greatest industrial sections. The country is rapidly filling up with manufacturing cities, and already there are millions of consumers who ought to be fed out of our own resources. Those millions will increase, and if our farmers permit them to be fed out of the West's resources it will be their own fault. The food and meat producing West now has the balance of trade against us, but now is the time to begin to turn the tide this way.

BRUNSWICK IN LINE

In Tuesday's election on the proposition to vote on a bond issue in the amount of $40,000 to bridge the Brunswick river, the voters of Brunswick county cast a large majority for bonds. The issue is contingent upon New Hanover's voting $25,000 in bonds to bridge the Cape Fear at Wilmington and construct a causeway across Eagles' Island to the proposed Brunswick river bridge. These two bridges and a modern highway above the tidewater line to connect the two bridges will unite Wilmington and New Hanover county with the sister county on the west side of the two rivers that separate Wilmington and the large undeveloped region beyond.

The significance of the vote in favor of the inter-county bridges project is that Brunswick has taken her place among the progressive counties of North Carolina. Her ready compliance with the legislative act to carry out the agreement between New Hanover and Brunswick counties as to bridging the Cape Fear and Brunswick rivers puts it up to New Hanover to come to the scratch with her part of the agreement. When New Hanover is in a position to act in accordance with her agreement, the sister counties will carry out one of the most progressive as well as the most extensive improvements in North Carolina. The cost and the results to be accomplished make the undertaking one of interest and importance to the whole State.

Southport's almost unanimous vote in favor of bonds is strong evidence of the progressive spirit that now animates the city that looks out over the ocean. The Wilmington, Brunswick & Southern Railroad, connecting Wilmington and Southport, has put new hope and life into Southport and she is preparing to seize the broader opportunities that are to come to her in a commercial way when deep water at the mouth of the Cape Fear becomes available for commerce at Southport. No one doubts that the near future will see Southport doing a commerce of her own, and the overwhelming vote which she cast for the double bridge project shows that she is backing up the high aspirations which possess all her people.

Brunswick county also has caught the spirit of progress and the great majority which she cast for the bridge means a forward movement for the entire county. When New Hanover and Brunswick are linked by the two bridges it will bring about a great development in Brunswick, heretofore impossible, and in a few years the broadened opportunities in the county will make it one of the most desirable and resourceful regions in eastern North Carolina. To carry out the bridges project will mean a wonderful trucking and agricultural development in the fine old county west of the Cape Fear, and it will hardly be less important to Southport than would be another railroad. Good roads will follow and there will be a closer union between Southport and Wilmington and with every quarter of the State.

Southport has seen it in that light and is to be congratulated upon the prospects that are thus made brighter for the ocean city of North Carolina.

It is now New Hanover's move.

WESTERN CONNECTIONS FOR WILMINGTON.

One great need of the port of Wilmington is one or more Western connections with the great Western trunk lines. They have come quite close to the South Atlantic and they are coming all the way some of these days. They already are tapping the States east of the Mississippi and it is quite within the possibilities for Wilmington to connect up with them in two or three years.

The Rock Island system is one of the great lines that are rapidly making Memphis one of the South's greatest interior distributing points. With the Mississippi river and her fine railroad advantages, Memphis is coming into her own as the depot of the vast production of a great portion of the West that is naturally tributary to her. Memphis is the natural gateway for a big share of Western traffic and that accounts for the rapid development of the Tennessee metropolis. It is growing into one of the South's finest and greatest cities.

Wilmington ought to keep a sharp lookout for a close connection with such cities as Memphis, Chattanooga, Louisville, Cincinnati, Chicago, Minneapolis and other great Middle West manufacturing cities and distributing points. The Rock Island system is building a great termnal on the Mississippi at Memphis, to involve the expenditure of $7,000,000. The system also will span the Father of Waters with a magnificent new bridge that is to be one of the railroad wonders of the age. Work will begin as soon as the necessary barges can be built for use in sinking the caisons to lay the foundation. The contract for the sub-construction alone contemplates an expenditure of $1,250,000.

The Cape Fear ought to be the natural ocean gateway for Memphis, and Wilmington ought to lose no opportunity to cultivate close relations with that growing Mississippi valley metropolis.

CURRENT COMMENT.

The quicker that new train between Sanford and Mt. Airy is ordered inaugurated the better pleased will the people be with both the Corporation Commission and the Southern Railway.—Greensboro News.

Rock Hill is to have an automobile factory in the form of an addition to the Rock Hill Buggy Company, one of the most prominent industries in the sister State. This is another evidence of the thrift of that little "Good Town."—Charlotte Chronicle.

The work of education in North Carolina is a work in which the women of the State are deeply interested. The counties in which women are being placed on school boards will have services which can but prove of value to the schools. It is to be expected that wherever elected as members of school committees they will use every effort to improve the schools.—Raleigh News and Observer.

The Manufacturers' Record compilation of census figures covering the movement of population to and from the Southern States shows that the balance against Virginia in the interchange for this generation and up to 1910 has been 452,807. Of the total of self-expatriated Virginians, numbering 621,693, 217,411 were living in States outside the South and 355,282 in other Southern States. In the exchange with other Southern States Virginia received 141,356, including no fewer than 73,713 from North Carolina. To North Carolina she contributed only 29,939. We do not believe that any one would deny North Carolina's development to have been larger, faster and broader, notwithstanding the fearful handicap of discriminatory freight rates from which her people are now resolutely seeking relief. But these same freight rates have driven from North Carolina into Virginia many thousands who were seeking the opportunity to do with their own neighbors business which the railroads would not let them do at home. These rates are still driving people from North Carolina into Virginia, where shippers are permitted to enjoy far lower rates for longer hauls. In their light, the statistical showing of population interchange is very easy to understand.—Charlotte Observer.

FAYETTEVILLE DEVELOPMENT.

Canalization of Upper Cape Fear—Steamboat Line—Notes.

(Staff Correspondence.)

Fayetteville, N. C., July 10.—In the language of one Patrick, surnamed Henry, "Why stand we here idle?" This is an interrogatory that may be appropriately passed around among the citizens of Fayetteville just now. For "time whereof not the memory of man runneth not to the contrary," the slumbers of her people have been sweetened by the dream that the old town would become an important distributing centre for a large area in some of the rich agricultural sections of the State. But those people have not yet been awakened to an appreciation of the possibility now presented, that their dream may be realized. The hand of opportunity is now held out in the Maxwell-Greenamyer project of an independent steamship line between Wilmington and the principal ports North.

The lock and dam improvement on Cape Fear river is making encouraging progress. We are reliably informed that its completion is considered certain within a period of two years and, possibly within 18 months. This triumph of engineerng skill will make an eight-foot channel between Wilmington and Fayetteville every day in the year. Then with the steamship line in operation, we shall witness the gratifying spectacle of the merchants of Fayetteville, when they open their morning and evening mails, finding through bills of lading for goods shipped from New York to Fayetteville, and every mile of the distance by water transportation, the cost of which, we are told, is not one-fourth of that by rail.

"Why stand we here idle?" Why do not the business men of Fayetteville hold a meeting and give the movement their hearty endorsemnt? So far as the interior towns of the State are concerned, Fayetteville will be the favored spot. She will be absolutely independent of the railroads on all goods shipped from Northern ports. Then, when it comes to the sale and shipment of these goods to interior points, she will still hold the winning card.

One of the strongest arguments in favor of the proposed plan is the unqualified endorsement of it by Judge Edgar Clark, chairman of the Inter-State Commerce Commission, who has not only approved it, but has asked for copies of the Maxwell speech for distribution.

Your correspondent has made intelligent inquiry as to the crop outlook in this immediate section, and the reports may be fairly classified as "good, bad and indifferent" on cotton, but very satisfactory on corn. Unfavorable conditions in Spring have made cotton at least two weeks late, and it would require unexpectedly favorable weather during the remainder of the season to make the crop an average one. In fact, the impression is general that the yield will be below that of last year.

Mr. Chas. W. Yates, one of Wilmington's leading citizens, has been spending several days here with his friend, Mr. Frank H. Stedman. He attended the annual meeting of the directors of the Cumberland Savings & Trust Co., of which he is a member. Mr. Yates informed your correspondent that he read the article printed in the Star favoring the semi-annual plan of collecting taxes and that he heartily approved. W. H. B.

BIG SALE AT SCOTT'S HILL.

Real Estate and Personal Property of Land and Lumber Co.

Under an order of the Superior Court for New Hanover county at the May term, W. P. Stacy, Esq., and ex-Judge E. K. Bryan, commissioners, yesterday sold at auction, after due advertisement, valuable lands in Pender and New Hanover county and the personal property of the Scott's Hill Land & Lumber Co., for which the Atlantic Trust & Banking Co., of this city, was lately appointed receiver.

A number of interests in the land and lumber company were present at the sale, including Mr. Theodore M. Byers and others, who were plaintiffs in the suit for the receivership, and Mr. Frosts, representing interests who held a second mortgage on the property for $20,000. The latter was the highest bidder for the property at $21,100, it having been first sold separately and then as a whole, both Mr. Byers and Mr. Frosts having been bidders. The sale is subject to confirmation of the court, pending which the highest bidder was required to deposit 15 per cent of the sale price, or about $3,500, which will be held by the receiver, pending a settlement of the case. The property when sold separately brought between $4,000 and $5,000 less than when auctioned off as a whole.

Messrs. Kenan & Stacy are attorneys for the receivers, the Atlantic Trust & Banking Co., and for Mr. Byers and the other plaintiffs.

Death of Little Child.

The 18-months-old child of Dr. and Mrs. Homer C. Wysong, of Rose Hill, died early yesterday morning after a week's illness at the home of Mrs. Wysong's mother, Mrs. Emma M. Grant, No. 918 Princess street. The funeral was held yesterday afternoon at 5 o'clock at the residence, conducted by Rev. Dr. A. D. McClure, pastor of St. Andrew's Presbyterian church. The interment was at Oakdale cemetery. Dr. and Mrs. Wysong were visiting Mrs. Grant when the little child was taken ill. They have many friends in the city who deeply sympathize with them in their sad bereavement.

A new process for making gold leaf, invented in England, electroplates the metal in a thin layer upon nickel and a base metal.

SUMMER TIME
Comfortables

These prices should be attractive—this store has made a Study of the Needs and Requirements of its Customers, and it spares no time or expense to fill their demands. It was never better prepared to take care of every need and request.

The Ripplette Night Gown—nothing is made cooler or more comfortable for Hot Weather. A full supply on display; for only 98c

HAWKINS IS ACQUITTED

Was Indicted Under Search and Seizure Act for Receiving Shipment of Six Gallons of Whiskey —Other Cases

"Not guilty" was the verdict rendered yesterday by Recorder Furlong in the case against B. F. Hawkins, a well known carpenter of Wilmington, who was recently indicted under the search and seizure act for having received by freight a barrel of whiskey containing six gallons. Hawkins admitted receiving the shipment but stated that he and five other men had gotten it for their own personal use.

Witnesses were introduced by the State to show that Hawkins had received several shipments of whiskey of two gallons each from the express office and that on the 27th of June he received a barrel of whiskey and that at the time he made some statement about getting a watch as a premium. Officer Frank George testified that he had received a number of complaints from people living in the vicinity of Hawkins' home in regard to the crowds that gathered there.

Hawkins in his own behalf did not deny having received the six gallons of whiskey but stated that he had carried it home and had notified his son and the other men who had ordered the whiskey with him that it had come, and that each came and got his gallon. He denied also having received any profit from the transaction, saying that each had paid $2.50 for the gallon which he received. He stated that the company from whom he ordered the whiskey had advertised that it would give a watch as a premium but that he had never received any watch.

It was the contention of the State that while there was no evidence to show that there had been a sale that the fact that Hawkins had expected to receive a watch as a premium was sufficient to convict him of a violation of the prohibition law even though he had not yet received it.

Probable cause was found in the case against Link Berry, colored, who is alleged to have broken into a dwelling house near Greenfield Park on July 4th. The evidence against him was mainly circumstantial it being shown that the tracks made on the Fourth by an unknown person were similar to tracks that were made by Berry on the following Monday. He was sent over to the next term of Superior Court, giving $200 bond for his appearance.

Prayer for judgment to be suspended for 60 days was granted at the request of the State in the case of William Grady, an old negro who was charged with having violated the prohibition law. Grady has a propensity for slumbering and spent most of the morning in the court room sound asleep. Mary Smith, colored, charged with having bought stolen goods knowing that they had been stolen, was found not guilty.

Lizzie Cole, colored, was sent to the county farm for three months, for the larceny of some clothes from another colored woman.

There were a number of cases for alleged violations of the sanitary ordinances of the city which were continued until July 15th on account of the crowded docket. The warrants were made out by the county solicitor upon information received from the health department.

MRS. E. L. HART BEREAVED.

Her Father, Mr. D. E. McKinne, Passes Away at Princeton.

Friends of Mrs. Edgar L. Hart, of this city, will deeply sympathize with her in the death of her father, Mr. David E. McKinne, of Princeton, N. C., which occurred at his home Sunday morning shortly after 7 o'clock, suddenly, of heart failure. Mr. McKinne was a native of Wayne county as were his ancestors for generations, though for many years he had been a successful merchant in the adjoining county of Johnston. His early manhood was spent in Goldsboro and it was there he married Miss Bettie Brothers. The body of Mr. McKinne was laid to rest in beautiful Willow Dale cemetery in Goldsboro Monday afternoon at 3:30 o'clock, the funeral taking place on the arrival of the train from Princeton, conducted by Rev. James Daniel, pastor of the M. E. church of Princeton, assisted by Rev. N. H. B. Wilson, pastor of St. Paul's M. E. church, of Goldsboro, and Rev. J. H. Hall, presiding elder of the Raleigh district.

A large delegation of friends from Princeton and that section, accompanied the remains to Goldsboro and there many sorrowing friends joined the funeral procession, while the many beautiful floral tributes attested the great sympathy for the bereaved ones in their sorrow.

Mr. McKinne from early manhood had been a most exemplary citizen and leaves to his children the richest heritage in a memory untarnished by any questionable act in all his life, the duties of which were fearlessly met and nobly done. Mr. McKinne for many years had been chairman and a member of the board of trustees of the State Hospital at Goldsboro. He was the last of his immediate family, having buried his last surviving sister, the late Mrs. Jula McKinne Parker, of Newbern, only a week ago last Saturday. He is survived by his devoted wife and four children, three sons and one daughter, all grown and married. These are Messrs. Frank, David and Malcolm McKinne, all engaged in business in Louisburg, N. C., and Mrs. Edgar L. Hart, of this city. Mrs. Hart at the time of her father's death was at Lake Junaluska, N. C., attending the missionary meeting of the Methodist Church, South, but hastened to Princeton upon receipt of the sad news. All the bereaved ones have the tenderest sympathy of a host of friends all over the State in their deep bereavement.

Civil Service Examination

A civil service examination will be held in Wilmington July 26th for the purpose of filling a contemplated vacancy in the position of fourth-class postmaster at Winnabow, and other vacancies that may occur at that office. The compensation was $270 for the last fiscal year. Application forms and full information can be had of the postmaster at Winnabow or at the Wilmington postoffice. The forms should be filled out and filed with the Civil Service Commissioner at Washington at least seven days before the 26th.

Col. Taylor Chairman

Mr. Robert E. Follin, of Winston-Salem, president of the North Carolina Fire Underwriters' Association, has announced the executive committee of the association for the year. Col. Walker Taylor, of Wilmington, is named as chairman with the following other members: Mr. W. B. Merriman, Greensboro; Mr. V. O. Parker, Raleigh; Maj. B. R. Huske, Fayetteville; Mr. W. C. Maupin, Salisbury.

CONSIDER SCHOOL MATTERS

Board of Education Name Committeemen—Decline to Name Women. Regulations as to Teachers' Salaries—Notes.

The County Board of Education in adjourned session yesterday afternoon elected committeemen for the ensuing term, passed a resolution declining to name women to places on the committee at this time; adopted regulations governing teachers' salaries; re-elected Prof. Washington Catlett county superintendent of public instruction; confirmed the election of Mr. John J. Blair as superintendent of the city schools; created a new school district for the colored people at Almont, and postponed the apportionment until after the tax books are made up so that an estimate of the amount of the school fund for the current year may be arrived at.

J. O. Carr, Esq., the chairman, presided and in attendance were the other two members, Messrs. J. G. L. Gieschen and B. Solomon. Present also was Prof. Catlett, who kept a record of the proceedings. The following were named as committeemen for three, two and one year, in the order given:

The Committeemen.

District No. 1, Hemenway school—Samuel Bear, Jr., J. Allan Taylor, W. E. Perdew.

District No. 2, Union school—John D. Bellamy, Jr., C. W. Worth, Geo. B. Elliott.

District No. 3—C. W. Bishop, E. Stokely, Walter Horne.

District No. 4.—J. Addison Hewlett, J. P. Herring, J. J. Melton.

District No. 5.—Giles W. Westbrook, Frank McGowan, Walter A. Taylor.

District No. 6.—D. G. Westbrook, R. S. Murray, Geo. W. Johnson.

District No. 7.—Oscar Pearsall, J. O. Brown, D. F. Klein.

District No. 8.—Thos. J. Burnett, H. B. Williams, Jesse B. Williams.

District No. 9.—Geo. C. Henniker, S. A. Lewis, A. Walter Hewitt.

District No. 10.—W. S. Cooper, W. H. Shearin, Wm. Gregerson.

District No. 11.—C. H. Alexander, G. R. Parker, R. C. Murray.

District No. 12.—Moses Horne, E. L. Herring, Edward Wright.

District No. 13.—Geo. T. Shepard, J. R. Bell, Geo. W. Shepard, Jr.

District No. 14.—Thos. F. Bagley, E. J. Harrell, J. A. Hewlett.

District No. 15.—W. A. Woods, J. W. Galey, Henry Mason.

District No. 16.—O. Martindale, J. S. Pridgen, J. H. Westbrook.

District No. 17, Winter Park.—Geo. Sloan, L. D. Latta, Geo. C. Jackson.

District No. 18, Bear Memorial school.—E. A. Metts, C. VanLeuven, J. F. Mann.

District No. 19, Almont.—E. P. Crump, H. McC. Stanford, H. L. Martenette.

The following resolution was adopted creating the new school district:

"Resolved, That a new school district, to be known as District No. 19, in the county of New Hanover be created with the following boundaries:

"Lying between the Northeast and Northwest branches of the Cape Fear river, bounded on the west and northwest by the New Hanover county line, and on the east by the railroad track of the Wilmington Bridge Company extending from Wilmington to Navassa, N. C.

"It is further Resolved, That a school for the colored race be established within the boundaries of said district, and that a committee be appointed for the same."

Decline to Name Women.

In declining to name women on school committees at this time the board adopted the following statement, which appears as part of the minutes of the meeting:

"After careful consideration it is the unanimous opinion of the Board of Education that it is not wise to appoint ladies on the school committee of the city of Wilmington at this time, inasmuch as we are about to undertake extensive improvements which will require the active attention of the best business men we can obtain, and will often necessitate meetings of the committees on short notice, and often at night. The members of the board expressed their full appreciation of the fact that ladies are amply fitted for the internal management of the schools, but felt that this is largely provided for at the present time in the fact that the schools are taught almost exclusively by lady teachers. The members of the board also expressed their willingness at all times to receive and will appreciate suggestions from the ladies tending toward the betterment of the schools and to carry them out so far as they are able to do; but finally concluded that the experience of the best business men in the community is needed until the contemplated improvements are completed."

At the meeting of the board Monday afternoon a committee of ladies from the North Carolina Sorosis appeared before the body and urged the appointment of women on committees in Wilmington. Mecklenburg, Guilford, Wake and other big and important counties of the State have elected women to positions on the committees. North Carolina Sorosis recommended for appointment on the city committees the following: Mrs. J. M. Solky, Union school committee; Mrs. J. Hicks Bunting, Hemenway; Mrs. A. J. Howell or Mrs. W. M. Creasy, Bear Memorial.

Regulations As to Salaries

"For the purpose of regulating and fixing the salaries of the teachers in the public schools of the city of Wilmington, the following rules are established:

"The basis of salaries for the several schools shall be fixed according to the grade of work done in said schools, and the respective schools are graded as follows:

"Class A—High School.

"Class B—Union, Hemenway and Isaac Bear Memorial schools.

"Class C—Williston and Peabody schools (colored.)

"Class A—High School: Teachers in the High School, except the principal, shall be paid according to the length of service and experience as follows:

"1. Teachers who have taught in the High School for a period of less than five years, a maximum salary of $75 per month.

"2. Teachers who have taught in the High School for a period of five years or more, a maximum salary of $80 per month.

"Provided: That in the event the committee shall at any time deem it wise to employ a male, as vice principal, the amount of his salary may be increased with the concurrence of the Board of Education.

"Class B—Union, Hemenway and Isaac Bear Memorial: The teachers under Class B shall be paid according to the length of service and experience, as follows:

"1. Those who have had no experience a maximum initial salary of $45 per month for the first year.

"2. Those who have taught in New Hanover county for a period of one year, and not exceeding three years, a maximum salary of $47.50 per month.

"3. Those who have taught in New Hanover county for a period of more than three years, and not exceeding five, a maximum salary of $50 per month.

"4. After a teacher has taught as much as five years and his or her salary has been $50 per month, then said salary shall be increased $1 per month for every additional year's service, until said salary shall have reached a maximum of $55 per month.

"Class C—Williston and Peabody Schools (colored): The salaries of teachers under Class C shall be fixed and determined, according to the length of service and experience, as follows:

"1. Those who have had no experience, a maximum salary of $35 per month for the first year.

"2. Those who have taught in New Hanover county for a period of one year, and not exceeding five years, a maximum salary of $35 per month.

"3. Those who have taught in New Hanover county for a period of five years or more, a maximum salary of $40 per month.

General Provisions

"1. The salaries of principals, and the teachers of special courses in any of the schools of the city shall be fixed by the committeemen, with the concurrence of the Board of Education.

"2. In determining the initial salaries of teachers, as based on their experience in teaching, the committees may substitute an equal amount of work in public schools elsewhere than in New Hanover county, if in their judgment it is wise to do so.

"3. The school term for which salaries are to be paid is fixed at 8 1-2 months, and in no event shall salaries be paid for a longer term than the actual service rendered.

Rural Schools

"On account of the fact that the work in the rural schools is not well graded, and the attendance is varied, definite regulations cannot be established that would apply justly to all the rural schools, and the following general regulations are fixed:

"1. In all schools in which one teacher only is employed, the salary shall not exceed $45 per month.

"2. In all schools where two or more teachers are employed, the salary shall not exceed $50 per month for the principal and $50 per month for the first assistant, and $35 per month for the second assistant.

"3. The above salaries are fixed as a maximum, and the committee must reduce the same according to the grade and nature of the work, especially where the grade of work is low and the attendance is small.

"The school term for which salaries are to be paid is fixed at eight months, and in no event shall be paid for a longer term than actual service rendered."

The new schedule as outlined above will give a slight increase to the teachers as a whole, and only a few will receive a less salary by reason of the new classification. Hereafter a teacher in order to get a certain salary must qualify in one of the classes. Heretofore the committees in some cases have granted the salary asked by the teachers rather than lose them. This plan is now changed and the only way a teacher can get an increase in salary is by moving up from one class to another, as outlined.

The Chairman's Statement.

J. O. Carr, Esq., chairman of the board, was seen after the meeting and made the following statement relative to the new regulations of teachers' salaries:

"These regulations were adopted after conference with the committeemen, and we consider them absolutely fair to all parties, as they bear on all alike. While there is some difference in the work of the different grades, it is not sufficiently marked to be a basis for differentiating salaries, and we think experience and service are the best test of efficiency. Under these regulations a teacher will not receive above $50 a month until her service exceeds five years. Every year's service in excess of five adds one dollar a month until the salary is $55 and the length of service is ten years, and here the salary ceases to increase, because we believe a teacher ought to make herself as competent in the grammar schools with ten years' experience as she will ever be. The readjustment of salaries reduces only one or two, a considerable number are not changed, and a large number are increased in varied amounts. On the whole, there is some increase, but it is not large."

Prof. Catlett was re-elected for a term of two years. Mr. Blair's election is for one year. Mr. Blair was elected by the joint committee of Districts 1 and 2 and their action was notified by the board.

Prof. Catlett yesterday submitted his financial report for the past fiscal year, from which the following is taken:

Receipts and Sources

Balance June 30th, 1912, brought forward, $670.04.

County funds for year—General State and county poll tax, $5,086.59; general property tax, $33,248.87; special county poll tax for schools, $1,525.88; special county property tax for schools, $24,912.32; fines, forfeitures and penalties, $14,540.42; refunded interest, $75; building and loan tax, $25; total county funds for year, $79,714.06.

Funds from State—From $125,000 appropriation, $1,327.77.

Private Donations—For libraries, $10.

Total funds from all sources, $81,731.87.

Expenditures

Teaching and supervision—County superintendent, $1,200; white teachers, $6,930; colored teachers, $3,310; total spent for teachers and superintendent, $11,440.

Building and supplies—Houses, repairs and sites (white), $8,264.27; houses, repairs and sites (colored), $77; fuel, $501.71; furniture, desks, blackboards, etc., $503.04; supplies, stoves, brooms, buckets, etc., $469.15; libraries, $30; insurance and rent, $108.24; installment on loan fund, $680; total spent for buildings and supplies, $10,633.41.

Administration—Treasurer, on disbursements, $1,398.05; mileage and per diem of County Board, $72; expenses of county board, $278.28; census, $19.84; expenses county superintendent, $100; all other expenses, $356.20; total spent for administration, $2,233.37.

Borrowed money, etc.—Taxes refunded, $3.85; errors and overcharges, $1; total borrowed money, repaid, etc., $4.85.

Paid to city schools—$61,625.11.

Total expenditures, $85,936.74.

June 30th, 1913, or overdrawn, $4,204.87.

General Statistics.

Schoolhouses—Value of rural property, white, $18,371; colored, $6,225; total, $24,596. Number of rural school houses white 15; colored 12; total 27. Number of school house with only one room, seven white, 11 colored, total 18. Total cost of new houses built, white, $7,644. Number of old houses repaired, white, 8; colored 4; total 12. Total cost of repairs, white, $620; colored 77; total $697.

School furniture—Number of houses furnished with patent desks, white 13; colored 6; total 19. Number of houses furnished with home-made desks, white 2; colored 6; total 8.

Districts—Number of school districts, white 15; colored 12; total 27. Number of districts having less than 65 census, white 7; colored 2; total 9.

Schools—Number of different schools taught, white 19; colored 14; total 33. Number having only one teacher, white 10; colored 11; total 21. Number having two or more teachers, white 5; colored 1; total 6.

Term—Average term in days, all schools, white 158; colored 157.

Libraries—Total number of rural libraries, white 15; colored 11; total 26. Number established during year, white 1. Total number of volumes in all, white 2,166; colored 785; total 2,951.

Superintendent's work—Days spent in office 270; days spent out of office 60.

Polls—Whole number of solvent polls 3,518; solvent white, 2,425; solvent colored 1,098; whole number insolvent polls 1,523; insolvent white levied on each poll $2.63; total tax levied on eah poll $2.63; amount devoted to schools $1.95.

Fines and Forfeitures.

In his financial statement, Prof. Catlett reported the amount and source of fines and forfeitures received for the fiscal year ending June 30th, 1913. Justice George Harriss made the phenomenal record of paying into the county treasury the princely sum of $791.15 as fines and forfeitures collected in his court for the last fiscal year. The amount was net to the educational fund of the county, no salary or fees having to be deducted for the magistrate, as his fees were included in the costs taxed against the defendants in his court. Members of the Board of Education commented upon the fine showing made by Justice Harriss. Only two other magistrates in the county turned in any fines and forfeitures at all for the year, these being Mr. W. A. McGowan, $5; and Mr. H. B. Williams, of the county, $2. The county auditor was asked by the Board of Education to ascertain why none of the other magistrates of the county turned in any fines and forfeitures.

From the Superior Court the school fund received $7,207.70 in fines and forfeitures, and from the Recorder's court $6,534.55. The total amount received from fines and forfeitures is $14,540.40. This is some $8,000 or $9,000 more than the Board of Education thought early in the year would be received from this source and the additional amount came in mighty well, for with it the board was able to get through the year with only about $4,000 deficit.

PI KAPPA PHI FRATERNITY

Sixth Annual Convention in Session at The Seashore Hotel, Wrightsville Beach—Election of Officers Today

The first business session of the sixth annual convention of the Pi Kappa Phi Fraternity was held at the Seashore Hotel yesterday morning with representatives from every chapter in the Southern States present. In absence of Mr. L. Harry Mixson, of Charleston, S. C., the Grand President, the meeting was presided over by Mr. J. D. Carroll, of Columbia, S. C., the Grand Secretary. Matters of interest to the fraternity were discussed and the reports from the various representatives showed the fraternity is now on a better footing than ever before.

In the afternoon another business session was held after which the members went out in boats on a fishing party. As many of the Fraters are from inland cities this part of the programme was very much enjoyed, and many of them showed themselves to be expert fishermen.

This morning there will be another business session and this afternoon the annual election of officers will take place. This will close the business part of the convention and tonight will be given over to the social side. Several of the visitors will remain over at the beach for several days.

The Pi Kappa Phi Fraternity was established at the College of Charleston in 1904, and from nine men and one chapter in that year it has grown to ten chapters and 160 men. There are chapters in North and South Carolina, Georgia and California, and recently one was organized in Ohio. Although it has only been established for such a short time it is making rapid growth, and its members are already found in many of the prominent positions of life.

The official organ of the fraternity is the Star and Lamp, published at Charleston, S. C., and edited by Mr. Charles K. Dillingham, of Newark, N. J. It is a neat magazine of 40 pages containing matters of interest to the Fraters, and serves as a means of keeping the members in touch with each other.

Wrightsville Beach has been chosen as the permanent meeting place for the annual conventions with the exception of the year 1915, when it will be held at San Francisco during the exposition. One of the strongest chapters of the organization is in California.

WILMINGTON'S SKYSCRAPER

Atlantic Trust & Banking Company Will Move Into New Home Soon

Within a few days the Atlantic Trust & Banking Company will move into its new home at Front and Market streets if the present plans are successful. The outside work on the new building was completed over a month ago, and the workmen have been busy for the last several weeks finishing up the interior. There remains little to be done, and it is expected that the building will be ready for occupancy by the first of next week.

The new building is one of the handsomest and most costly structures in the city as well as the tallest as it contains eight stories. It has been fitted up with the most modern conveniences and the latest furnishings and will compare most favorably with other bank buildings in the State.

EMPLOYING PRINTERS.

Ben Franklin Club Name of New Organization Formed Yesterday.

The employing printers of Wilmington met yesterday morning at 11 o'clock in the office of Joseph W. Little, Esq., for the purpose of forming a permanent organization under the name of the Ben Franklin Club to advance the art of printing and publishing. Matters of interest to the members were discussed, after which officers for the new organization were elected, as follows:

President, Mr. J. W. Jackson, of Jackson & Bell Printing Co.; secretary and treasurer, Joseph W. Little, Esq., of the Wilmington Stamp and Printing Co.

The printing offices represented either in person or by proxy were as follows: Jackson & Bell Printing Co., Wilmington Stamp & Printing Co., The Evening Dispatch, LeGwin Printing Co., The Morning Star and the Review Job Office.

THE C. W. POLVOGT COMPANY

Wilmington's Shopping Center.

SOCIAL & PERSONAL

Mrs. George B. Rodney and little child, of Arizona, are guests of Mrs. J. C. Munds, No. 207 Ann street.

* * *

Mr. and Mrs. W. H. Bessent, of Gaffney, S. C., are guests of their parents, Mr. and Mrs. H. B. Bessent, No. 211 Cowan street.

* * *

The Woman's Missionary Society of St. Andrew's Presbyterian church will hold its regular monthly meeting this afternoon at 5 o'clock. All members are urgently requested to attend.

* * *

Rev. and Mrs. A. H. Porter, of Whiteville, and Rev. W. G. Moore, of Chadbourn, were in the city Tuesday on their way to New York. They will attend the B. Y. P. U. convention, which convened in Brooklyn yesterday.

* * *

Charleston, S. C., Post: "Mr. J. M. Henderson, who has been conducting a truck farm near Charleston, living in the city with Mrs. Henderson and their daughter, Miss Lilybelle Henderson, left here Tuesday to make their home in Wilmington, N. C."

PERSONAL PARAGRAPHS.

—Mr. J. W. Mann, of Fayetteville, was in the city yesterday.

—Mr. G. K. Messick, of Southport, was among the visitors yesterday.

—Mr. C. A. Hissen, of Newbern, was in the city yesterday, a guest at The Orton Hotel.

—Messrs. D. W. Holbrook, C. S. Elam, J. C. Armstrong, P. M. Edge, H. L. Jones and F. B. McCracken, of Charlotte, were guests at The Orton yesterday.

—Adjutant L. Leon announces that the regular monthly meeting of Cape Fear Camp, No. 254, U. C. V., will be held at the W. L. I. armory at 8 o'clock this evening. It is the first meeting since the reunion of the Blue and Gray in Gettysburg last week and some of those who went from this city will likely tell of their trip for the benefit of those who did not go.

LOCAL DOTS.

—Chief of Police Williams yesterday stated that beginning July 15th the city ordinance requiring chauffeurs operating automobiles to display their licenses on cars will be rigidly enforced.

—Jake Richardson, colored, was arrested last night by Officers W. R. Applebury and Frank George for alleged violation of the prohibition law. Richardson had in his possession one gallon jug and 13 half pint bottles of whiskey.

—Wednesday afternoon about 6 o'clock a negro boy leaped over the counter of Mr. L. B. Sasser's drug store at 800 Market street while the clerk was waiting on a customer and took from the cash drawer $6. Although chased by several persons, the negro succeeded in making his escape, and has not yet been apprehended.

—No clue has as yet been found as to who the thief was that stole $980 from the safe of the law offices of Bellamy & Bellamy in the Odd Fellows' Building some time Sunday or Sunday night. The police are at work on the case, but the robbery was so cleverly executed that it has been impossible to find out anything more about it beyond the fact that the money is gone.

—Because of a misunderstanding of orders by his fireman, Engineer R. H. Brower, of Atlanta, Ga., formerly of Wilmington, was recently burned so that he died in a few minutes. The accident occurred at Albany, Ga. The fireman operated the "blower" on the engine in such a way as to cause the flames to be swept out of the door of the furnace and to envelope Mr. Brower's body. He was formerly engineer for the Atlantic Coast Line with headquarters in Wilmington but had been with the Central of Georgia Railway for many years.

REAL ESTATE TRANSFERS.

Several Deeds Filed for Record at the Court House Yesterday.

Deeds were filed for record yesterday as follows:

Sarah N. Montford, et al., to Geo. C. Montford, for $1 and other considerations, 31 acres of land in Masonboro townsaip, adjoining lands of J. P. Herring and others.

Chas. C. Chadbourn and wife to Plato Hall and wife, for $100 and other considerations, lot on north side of Queen street, 142 feet east of Tenth, 47x99 feet in size.

Plato Hall and wife to B. Frank King, Jr., for $400 and other considerations, lot on west side of Fifth street, 120 feet north of Taylor, 30x150 feet in size.

The New Hanover Transit Co. to J. R. Mercer, of Hallsville, for $100 and other considerations, lot 2 in block 12, Carolina Beach.

W. L. Gaskin and wife to P. Q. Moore and wife, for $1,000 and other considerations, lot on Smith's Creek, 347 feet north of the bridge over the creek.

PRESBYTERIAN REVIVAL.

Rev. Dr. A. D. McClure Preached at Immanuel Last Night.

Last night Rev. Dr. A. D. McClure, pastor of St. Andrew's Presbyterian church, preached a strong and forceful sermon at the series of services which are in progress at the Immanuel Presbyterian church. The large congregation was deeply impressed by his masterly appeal for a sound faith in the truths of the Gospel. Interest in the meetings which have been going on since Sunday is increasing and they are being largely attended. The sermon tonight will be preached by Rev. J. M. Plowden at 8 o'clock, and the public is invited. There will be no services tomorrow night.

"CAN'T YOU HELP MY BABY?"

Mothers of Eczema Tortured Children Ask Us This

Of all the ills of childhood none causes more suffering than eczema and the other itching, burning rashes that drive the little ones almost frantic.

Nowadays when mothers ask us, "Can't you help my baby get relief from eczema," we can say, "Yes." Our new Skin remedy, Saxo Salve, has worked some very remarkable cures here, not only for children but for adults as well.

Its first effect is to stop the terrible itching and burning, and make the skin comfortable. Then it is absorbed right into the skin, destroying the germs and exerting its healing power at the seat of the disease.

We guarantee Saxo Salve to give satisfaction when used for eruptions and skin troubles, of any kind, paying back your money if it does not.—Robt. R. Bellamy, Druggist, Wilmington, North Carolina.

P. S.—For children's eczema, as an auxiliary treatment, build up the blood with Vinol. We guarantee it.

(Advertisement.)

Wrightsville Beach

Messrs. H. Eugene Wood and Russell Jones, of Raleigh, were among those registered at the Hanover Inn yesterday.

Yesterday afternoon's Fayetteville Observer: "Miss Katie Lee Bell will leave this afternoon for the Beach.——Mr. and Mrs. David Currie are spending some time at Wrightsville Beach."

Editor A. Roscower, the able editor of the Goldsboro Headlight, spent yesterday on the beach. He came down to make arrangements to bring his family here next week for a stay of some time.

Wednesday's Winston-Salem Journal: "Miss Ruth Efird, who has been the guest of Miss Louise Hine, on Cherry street for the past few weeks, left yesterday for Wrightsville Beach, where she will attend a house party before returning home."

Among the arrivals yesterday at the Oceanic Hotel were P. M. Pierpont and S. Z. Vardaman, Atlanta; G. J. Mills, Rocky Mount; C. B. Oakley, Norfolk; George R. Barnwell, Charlotte; C. M. Galloway and W. C. Brav Sanford, Fla.; Mrs. M. V. Mitchell, Chicago, Ill.; M. W. Almands, Philadelphia, Pa.

A party of 15 persons is expected to arrive from Charlotte Tuesday night to spend several days at the Oceanic Hotel. This popular hotel is receiving many reservations from all parts of the State for rooms during July, and the indications are that for the next few weeks it will have all the guests that it can accommodate.

Fayetteville, N. C., July 10.—Miss Hattie Owen is at Wrightsville Beach, a member of a house party of her cousins, the Misses Mitchell——Mr. Hunter G. Smith has returned from a three weeks' stay at Wrightsville Beach. He motored through the country with Mr. and Mrs. O. C. Klingman, of Greensboro, in their new Case car, coming by way of Clinton.

A letter from Atlanta, Ga., received yesterday stated that all the space on the five Pullman cars which will arrive today ha dbeen taken up Wednesday. These special cars will be attached to regular trains and will come directly from Atlanta to Wilmington. Both the Seashore and Oceanic hotels have made a large number of reservations for persons coming on these cars.

Yesterday's Charlotte Observer: "Miss Ruth Dowd, who returned home several days ago from Wrightsville Beach, is visiting Mrs. Baker in Union, S. C.——Mrs. W. F. Dowd and Misses Anna Belle and Ruth and Master Sidney Dowd will return home tomorrow from a two weeks' stay at Wrightsville Beach.——Mrs. William E. Holt, Jr., and sister, Miss Lida Caldwell, and Miss Sarah Wilson have returned home from Wrightsville Beach where they were guests for two weeks and a half at the Seashore Hotel. Mrs. Holt returned to her home in Lexington yesterday."

Capt. L. D. Blondell, the renowned long distance endurance swimmer, who has been engaged by the Tidewater Power Company to give three exhibitions at Wrightsville Beach next week, stated last night that he would have his miniature Titanic completed by noon today and that the boat would be taken over the city on a truck as an advertisement for the next few days. The boat is 18 1-2 feet long over all and is an exact miniature reproduction of the giant ocean liner that met such a disastrous fate last year. On Friday night of next week Capt. Blondell will give a reproduction of the Titanic disaster. This will be given on the night of the last exhibition. Wednesday and Thursday nghts he will have exhibitions that will be found to be just as interesting to the crowds that will attend. The feats to be performed by Capt. Blondell will take place in Banks' Channel, back of Lumina.

Included in the arrivals at the Seashore Hotel yesterday were J. Ross McNeal, Burgaw; Dr. F. H. Holmes and H. A. Grady, Clinton; C. S. Elam, Charlotte; Mrs. H. W. Reinhart and Mrs. Frances L. Lyon, Greensboro; J. P. Christenberry, Charlotte; Mr. and Mrs. Wm. M. Jones, Mrs. H. M. Wudon and Miss Fanny Wudon, Spartanburg, S. C.; Mrs. W. J. Britton, Spartanburg, S. C.; C. H. Ferris, Maxwell Hill, C. G. Horester, A. M. Martin, E. H. Arrington, Mrs. J. J. Oliver, Misses Lola, Virginia and Eloise Anderson and Miss Lou Newberry, Augusta, Ga.; G. T. Pearson, Whitney; Miss Anne Anderson, Augusta, Ga.; W. C. Russell, Laurinburg; J. T. Monroe, Marion, S. C.; Mr. and Mrs. W. H. Davis, Mr. and Mrs. J. W. Chipley, Athens, Ga.; Mrs. G. S. Jones, Hamlet; W. W. Hagood, Charlotte; R. B. Weil, Athens, Ga.; Dr. and Mrs. J. S. Gibson and Miss Nina Gibson, Laurinburg; E. C. Elzemeyer, Greensboro.

Yesterday's Charlotte Chronicle: "Mrs. William E. Holt has continued to her home in Lexington, following her return from Wrightsville Beach, where she chaperoned a party composed of Misses Lida Caldwell, Mary Durham and Sarah Wilson.——Mrs. W. F. Dowd and daughter, Miss Anna Belle Dowd, and Master Sidney Dowd will return tomorrow from Wrightsville Beach. Miss Ruth Dowd returned several days ago and is the guest of friends in Union, S. C.——Mrs. E. V. Finlayson and daughter, Miss Mildred and Susan, have returned from Wrightsville Beach, and are at their home on West Sixth street, which was occupied by Mr. and Mrs. J. M. Harry during their absence.——Mrs. E. W. Stitt left this morning for Wrightsville Beach, where she will join a party composed of Mr. and Mrs. J. W. Cannon of Concord, and Mr. and Mrs. Walter Montgomery and children, Misses Lois and Kate, and Messrs. Frank and Walter Montgomery and Mrs. Sloan Crawford, of Spartanburg, S. C., Mr. and Mrs. James W. Cannon, Jr., and Mrs. Martin Cannon and small soon of Concord."

One of the most delightful social events of the week was a fancy dress party given by little Miss Marjorie Willard in honor of her friend, Miss Elizabeth Baskerville, of New York. The lawn in front of the Willard cottage, near Station Two, had been turned into a veritable Japanese garden, decorated with lanterns, parasols and long waving fronds of gray moss, giving the effect of wistaria, through which electric lights of varying colors lent a most charming effect. In the background were grouped masses of growing nasturtiums, cypress vines and miniature sunflowers.

The children began gathering about 7 o'clock and their best friends would have been puzzled to identify them in their new characters. Particularly effective were the costumes of little Miss Baskerville, who came as Mary Garden; Miss Adelaide Boyiston, of Raleigh, as Fatima; Miss Laura Parsley as a little farm boy, in typical blue jeans—patch and all—Miss Lola Taylor, as the Rose Maid; Miss Mabel Elliott, as a trained nurse; and Der Captain impersonated by Master Louis Hinton, accompanied by little Josephine Hinton as the cutest little Katzenjammer Kid.

After playing themselves out, the various characters were grouped on the lawn in front of the cottage and delicious refreshments were passed.

Known for 25 years in Southern Homes as Harris' Lithia Water.

Harris Spring Water

ONE of the few natural mineral waters containg effective proportions of LITHIA.

Prevents sickness and promotes health by reason of its perfect purity and remarkable properties. Great value in Rheumatism, Gout, Kidney and Bladder Trouble, Gravel, Dyspepsia, Indigestion and Stomach Trouble. Constipation.

H. L. VOLLERS, Distributor, Wilmington, N. C.

Harris Springs Water Co., Harris Springs, S. C.

One of the best known natural mineral waters.

"THE REAL REASON"

Monroe Journal Says Lacking Booze Is Not Trouble at Beach

The following is from Wednesday's Concord Daily Tribune, under the caption, "The Real Reason," incorporating an editorial from the Monroe Journal:

"Much has been said in the public prints recently regarding the wail sent up by the Wrightsville hotel people that the strict enforcement of the prohibition laws is ruining their business. We have contended that the enforcement of the laws will increase rather than diminish their patronage. While a few people will patronize them because of the fact that they can get booze conveniently, by far a larger number will go there because the place is free of it. The Monroe Journal throws some additional light on the matter in the following:

"'This is about the most absurd thing that has come along in some time. When the moral sentiment of North Carolina decided to forever expel the liquor traffic from this State most every barroom keeper in the country said that it was an outrage that his business was to be broken up. But the people who objected to having their boys and their homes ruined replied in thunder tones that the barkeepers could get other employment or go to the poor house. That is the answer to a set of hotel people who claim that they can't run without violating the law by selling liquor. The only answer to them is that if you can't run you can quit. But really, the need to sell beer is not what is lacking to these people. Their trouble is the same that other people have who think they deserve special favor. Their real trouble is with themselves. It is not the lack of beer that is keeping the people away from Wrightsville. It is the lack of decent treatment and adequate accommodation after they get there. The resort people have never had one thought about how to make their places attractive, how to make it pleasant for their guests, nor how to systematically advertise the place and then back it up after they got the people there. They charge hig rates and give poor fare. The car line charges an exhorbitant price for its service, the beach privileges are monopolized by the few hotels that are now whinning, so that a visitor can't take a bath without being grafted, boating and fishing are practically prohibited by exhorbitant charges, and the whole business is run on a chees-paring basis that propels instead of attracts people. Morehead is far more inaccessible than Wrightsville, and the surf there is two miles away across the sound. Wrightsville is far more convenient and attractive but only its own shortsightedness and lack of enterprise is the cause of its own disaster. If they begin any hocus pocus with the prohibition law some Superior Court judge ought to be sent there that will put these delectable hotelists in jail.'"

KNIGHTS OF KHORASSAN

Suez Temple Will Probably Make Pilgrimage to Wilmington

Wilmington's importance as a Pythian center, in the State, many Knights firmly believe, entitles this city to a larger representation in the Dramatic Order, Knights of Khorassan, or, to use the more popular expression, "The Dokies." To that end several ardent Pythians in the city, notably Past Chancellors J. W. Smith, C. E. Haskett and W. P. McGlaughon, are just now bending their energies to the organization of a class of tyros to be sent across the burning sands in August and every Pythian is expected to respond to the call elsewhere in today's paper.

If 40 tyros can be induced to risk life and limb in Wilmington, Suez Temple No. 73, of Charlotte, has consented to make a pilgrimage to Wilmington during the coming month and confer the degrees upon the class. The D. O. K. K., is to Pythianism what the Shriners are to Masonry and all third-rank Pythians are eligible to membership upon the payment of the very reasonable fee required and quite a number of local Knights as well as those in surrounding towns may take advantage of this pilgrimage to become identified with the social organization of Pythianism, which is always a feature of the Grand Lodge sessions. Any member of the committee named will be glad to give a bill of particulars to those contemplating joining.

The Workingman Will Take a Hand In It?

WAS SELLING WATER

Negro Worked Neat Trick on Front Street Yesterday Afternoon

A yellow negro with a ponderous-looking grip appeared on Front street yesterday afternoon and let it be known that he was well stocked with various brands of whiskey. He found a ready market for his wares and dispensed a number of pint and quart bottles of the stuff at the rate of 35 cents for the pint bottles and 70 cents for the quart bottles. He soon sold out and disappeared.

Notice was sent to police headquarters that booze was being passed out freely on the main thoroughfare of the city, and Officers Leon George and Frank George were sent to look into the matter. When they arrived on the scene of his activities they found several who had made purchases from him. When the bottles were opened they were found to contain a good brand of pure water, and then there was some mild "cussing" done by those who had been duped. In the meantime, the negro had made his escape, and he has not been seen since.

It was suggested last night by a gentleman that perhaps the negro got his idea from the barrel of ice water which the Plate Ice Co., has recently placed in front of the Bijou or Grand Theatre for the relief of the thirsty. Anyway, there are some mad folks who, if they could lay their hands on the aforesaid negro, would no doubt give him a sound thrashing.

CONSIDERATION CONTINUED.

Of Bill to Regulate Sale of Cotton Futures.

Washington, July 10.—On account of the lengthy session of the Senate today, the Agricultural committee was unable to take up final consideration of the bill of Senator Smith, of South Carolina, to regulate the sale of cotton futures. The bill will be considered tomorrow.

QUALITY

of material is an important essential in the building of a house or your body. It is equally essential in the construction of teeth that will be strong and able to resist the severe storms of decay that will sweep over them. Teeth that are built of flimsy material will easily yield to its enemies. The little extra effort you make to have them built of the best material, will be worth more than money to you in later years. A reliable dentist will give you the best advice as to the kind of food that will build stronger teeth. One reason patients show the appreciation of my advice—they are glad to return when an operation is needed and have their teeth trusted to my care.

Garrell Building.

Financial and Commercial

COTTON MARKET UNCHANGED

So Far as Was Reflected in Trading No New Features Developed—Advances Appeared to Meet Realizing.

New York, July 10.—No fresh feature of importance developed in the cotton market so far as reflected by today's trading. Business remained comparatively quiet, and fluctuations were more or less irregular, but advances appeared to meet considerable realizing, while in the late trade there seemed to be some local pressure on reports of scattering showers and lower temperatures in the Southwest.

After opening three points higher to two points lower, the market sold about three to five points under the closing figures of yesterday, as a result of realizing, but there was no aggressive pressure, and the appearance of moderate buying orders in the hands of trade interests soon caused a rally.

The failure of the official weather map to confirm private reports of numerous showers in Texas and Oklahoma, and rather more favorable advices from the Balkans helped the upturn, which carried prices about three to six points net higher. Offerings became heavier around 11.55 for October, however, and the market eased off in the late trading on expectations that tomorrow's weather reports would be more favorable and rumors that the scattering short interest had been pretty well covered.

Closing prices showed a net loss of two to five points, and were at practically the lowest of the day on the near positions. Reports from Houston that the first new bale of the season had been received there today, about eight days later than last year, seemed to attract attention to the possibility of a light movement during August, and one of the trading features was switching of October shorts into the later months. Liverpool will remain closed until next Monday.

Spot cotton, quiet. Middling uplands, 12.35; middling gulf, 12.60; sales, 100 bales.

Cotton futures closed steady.

Virginias—Prime hand-picked, 88c.; machine-picked, 80c.

CROP AVERAGES DOWN

Nearly One Per Cent Lower Than On Same Date Last Year

Washington, July 10.—Drought and early frost in certain parts of the country brought the average condition of the crops in the United States on July 1st down to nearly one per cent lower than on the same date last year and to 1.7 lower than the average crop condition on July 1st, for some years years past, ten years in most cases.

Conditions are below the average, the Department of Agriculture announced today in the Atlantic Coast and North Central States, except Virginia, Florida, Ohio, Wisconsin, Iowa, and Nebraska.

They are above average in the South South Central and far Western States, except Kentucky, Alabama, Montana, Utah and California.

The lowest conditions are found in California where July 1st found the crops 15.2 per cent below average. North Dakota's crops are 14.7 per cent below; New Hampshire, 13.6 per cent, and South Dakota, 11.1 per cent. Wyoming is the highest above average with 9.3 per cent, followed by Nebraska, 7.7; Texas, 6; Washington, 5.5; Oregon, 5.2, and Iowa, 5.9 per cent.

Corn shows the most flourishing condition, standing at 103.5 or 3.5 per cent above its ten-year average. Other crops show the following average:

Hemp, 103.3; hops, 103.1; Winter wheat, 102.1; cotton, 102; alfalfa, 101.6; cantaloupes, 101.5; kaffir corn, 101.1; apples, 100.5; beans (dry), 100.5; sugar beets, 100.3.

Rice, 99.9; peanuts, 99.9; watermelons, 99.9; lima beans, 99.8; cabbage, 99.4; Rye, 98.9; sweet potatoes, 98.6; broom corn, 98.5; millet, 98.4; sorghum, 98.4; sugar cane, 98.2; onions, 98.1; blackberries, 98.1; hay (all cultivated kinds), 97.9; raspberries, 97.6; tobacco, 97.6; potatoes, 97; clover, 95.9; tomatoes, 95.6; flax, 94; grapes, 93.9; peaches, 93.7; pasture, 91.4; strawberries, 91.4; oats, 90.3.

Barley, 89.7; pears, 88.7; oranges, 88.14; Spring wheat, 86.5; timothy, 86.3; lemons, 63.3; blue grass seeds (in Kentucky), 62.5.

TONE OF STOCKS IMPROVED

Brisk Advance Precluded by Absence of Outside Interest—Small Advances Retained at the Close of Market.

New York, July 10.—Both at home and abroad there was an improvement today in condition affecting stock market values. The betterment was sufficiently pronounced to find reflection in price movements, although the low point to which trading had fallen and the absence of outside interest in the market precluded an extended and vigorous advance.

During the first hour there was a brisk demand and prices rose smartly. Canadian Pacific, yesterday's weak feature, bounded up to 238, and Union Pacific nearly as much. Other prominent mediums of speculation rose a point or more. The demand soon fell off, however, and prices reacted. The market came to a standstill on the downward wing and during the remainder of the session changes were small. The list dipped downward again shortly before the close, but part of the day's advance was retained in most cases.

The action taken by President Wilson in the hope of averting a strike of conductors and trainmen on the Eastern railroads was hailed as the most important influence on the constructive side of the market. Encouragement was derived also from the 2 per cent. treasury statement, which have recently sold below par for the first time, would be protected by means of changes in the currency bill.

The extension lately of the short interest made possible a successful drive at the bears, and this was largely responsible for the swiftness of the early rise.

Although the monthly statement of the United States Steel Corporation showed a falling off in unfilled orders of 517,000 tons, bringing back the amount to the smallest in a year, the showing was well in line with expectations and exercised no influence on the market.

The late decline was lead by New York Central, which made a new low record for the year, at 95¼, after receipt of news from Washington of Senator Norris' proposal for an investigation into the road's contemplated bond issue in connection with consolidation of New York Central and Lake Shore. Chesapeake and Ohio also touched a new low point for the year at 51¾.

Brighter prospects for peace in the Balkans, and the Bank of England's strong weekly statement, was reflected in the better tone of the foreign markets. Europe bought 20,000 or more shares here, principally Union Pacific and Canadian Pacific.

Bonds showed some improvement, but the demand was light. Total sales, par value, $1,365,000. United States 2s advanced ½ on call to 98¾. Total sales of stocks today, 163,400 shares, including American Tobacco, 200; A. C. L., 100; C. and O., 3,400; Lehigh Valley, 2,400; N. and W., 200; S. A. L., pfd., 200; Southern Railway, 11,900; Tennessee Copper, 200; Union Pacific, 30,100; United States Steel, 26,400.

DAVID'S

The first "4th of July" celebration

IN those days they celebrated the country's independence of foreign rule; they had to fight for it, but they got it. In these days there's a different sort of independence to be gained; and you ought to help win it.

Independence from fraud in merchandise is one of the things we 're trying for; the elimination of the cheap stuff that masquerades as quality. It appears in clothing in the form of cotton mixed fabrics, in "sloppy" tailoring, in flashy, undignified styles.

Hart Schaffner & Marx

clothes are a declaration of independence; they're all-wool, the best tailoring, the best style; they give the wearer independence of thought; and they save him from paying too much for good clothes.

That's the way we sell them; at $18, $20, $25, and more; the best values you ever saw at $25.

The A. David Company

This store is the home of Hart Schaffner & Marx clothes Manhattan Shirts.

WHEN the sun broils and you want to fool the temperature, step right into a Stein-Bloch Summertime zephyr-weight suit. Buy one of these wonderfully tailored, lightest weight, two-piece garments in either True Blue Serge, Zephyr Home Spun or other tropical fabrics. You will hardly know the suit's on your back and you will enjoy the coolness it imparts. You will enjoy the low price more.

Palm Beach Suits, $7.50.

GEORGE J. RAMSEY, M. A. L. L. D. President, Raleigh, N. C.

DISCUSSED PENDING FEDERAL MEASURES

(Concluded from Page One.)

York and New Orleans, Judge George Rountree made the principal talk against the bill and in favor of adopting the resolution, which he said admirably expressed the economic situation. He declared that the cotton exchanges were absolutely necessary to producer and manufacturer, steadying the market and enabling the business of the country to adjust present conditions to future conditions. The tax proposed, he said, would wipe out the exchanges and drive the whole business to Europe, where the alleged evil would still flourish. "The power to tax is the power to destroy," he quoted from Chief Justice Marshall, and the man who introduced the bill as a rider to the tariff bill did it with the expectation that it would slip through without proper debate. It would destroy property of immense value, he said, and rob the business of the country of the best facilities it has for the conduct of the cotton industry. Dealing in cotton futures, he continued, is not gambling, though there is gambling in bucket shops. It is not gambling, he said, when the stuff for which a contract is made is delivered, and not a contract was ever made in the cotton exchange that wasn't delivered to somebody. Gambling is where one party to a contract is bound to lose. Future contracts in any thing can be made and both parties gain. The cotton exchange occupies the same position relative to the cotton crop that the clearing house occupies towards banking. Judge Rountree discussed the subject from all points, and asserted that the country has an erroneous conception of the exchange.

Mr. D. L. Gore said he had thought a lot about it and he wasn't prepared to say what ought to be done. He was about the exchange like somebody was about women, that they are a necessary evil, that men can hardly get along with them and can't get along at all without them.

The resolution was adopted as follows:

"In economic no less than in natural law remedy is often worse than disease, and nothing is more to be deplored than benevolent intention misdirected. Experience has demonstrated the existence of corporate abuses, yet no one proposes to prohibit corporations. To correct abuses is statesmanship, to destroy organization would be industrial suicide.

"These observations are peculiarly applicable to the cotton future problem, and against the enactment of a law which, while purporting to correct abuses would destroy the system, we urge the following reasons:

"First: The ability to market the cotton crop gradually is made possible only through future contracts, and the denial of this facility would cause a congestion which would result in ruinous prices to producers. The cotton crop comes on the market at one time, and for the demand to be limited to spot transactions would play into the hands of large spot dealers who could depress prices to ruinous levels; while the facility of future contracts, by creating a broad market, sustains prices by distributing deliveries over a long period.

"Second: Actual deliveries on exchanges are very small, and were spot dealers denied the right to hedge purchases dealings would be limited to spot transactions and an open market effectually closed. This would prove ruinous to the growers.

"Third: The abandonment of the cotton future busines by the exchanges of this country would neither abate the abuse nor destroy the system, for the business would be transferred to European exchanges where public settlement would be ineffectual against abuses now in reach of local sentiment.

"It is the sense of the Wilmington Chamber of Commerce that the provision in the pending tariff bill taxing cotton future contracts one-tenth of one cent a pound would be equivalent to closing the exchanges of this country and work irreparable harm to producers.

"Resolved, That a copy of this action be sent to the Senator and Representatives from this State with the earnest request that they oppose vigorously the enactment of aforesaid provision."

Having already expressed its hearty approval of the plan advocated by Mr. A. J. Maxwell, to establish a boat line to this port for the purpose of adjusting freight rates, this expression being made at the time of Mr. Maxwell's address before it, the Chamber of Commerce readily gave its formal endorsement yesterday in the following resolution:

Maxwell Plan Approved

"In the matter of inter-State freight rate adjustment the situation calls for clear thinking and dispassionate action. There is no problem of greater economic importance, involving larger and more varied interests, than inter-State freight rates, and so intimately is the subject interwoven with the public good that these transportation instrumentalities though privately owned are publicly controlled, and to this end the general government has entered upon a comprehensive system of waterways development and instituted a judicial and administrative tribunal for proper regulation.

"The situation affecting this State has given rise to numerous so-called remedies, but as a matter of fact the only practical remedy so far publicly proposed is the one advocated by Mr. A. J. Maxwell, which contemplates the operation of an independent line of steamers from Northern and Eastern ports to Wilmington with the object of approximating Norfolk rates on Northern and Eastern business and effecting a prorating arrangement with rail lines out of Wilmington to North Carolina territory. This scheme would operate to reduce rates directly from Northern and Eastern centers, and by introducing a new element of competition have the effect to sensibly influence and probably materially reduce Western rates.

"Looking, however, to an ultimate solution of the question, and reiterating the position formerly urged by this Chamber, we strongly recommend that the State concentrate its efforts on the early completion of the Intra-Coastal Waterway from Newbern to Wilmington. The accomplishment of this project would mean the application of Norfolk Western rates directly to Wilmington, thereby making Wilmington a basing point for the State.

"The waterway project has received the endorsement of Congress, and all that is needed to realize its early completion is the united and determined effort of the Senators and Representatives from this State.

"The Wilmington Chamber of Commerce endorse both the Maxwell scheme and the Intra-Coastal Waterway project as the only feasible plans now before the public promising sure and permanent relief from our present inter-State traffic problems."

Continue Commerce Court

The resolution endorsing the Commerce Court and urging its continuance was adopted without discussion or objection, and is as follows:

"It is the sense of the Wilmington Chamber of Commerce that the Commerce Court should be continued, and urge in support thereof:

"First. That the Commerce Court by reason of its specific duties is qualified to hear and determine traffic matters with a degree of intelligence and dispatch impossible to District courts, thereby giving uniformly to decisions and relieving the congestion of these important causes.

"Second. That the amendments provided for in the Broussard bill extend the right of appeal from the decisions of the Inter-State Commerce Commission to shippers, and relieve the Supreme Court of insular business, thereby according equal rights to shippers and relieving the Supreme Court of its present overburdened condition.

"Resolved, That a copy of this resolution be sent to the Senators and Representatives from this State with request that they give the same respectful consideration."

In Memoriam

Tributes of respect on account of the deaths of Mr. B. O. Stone and Mr Henry Gieschen were read, the first by Mr. Chas. N. Evans and the other by Secretary Howard B. Branch, and were adopted by a rising vote, ordered incorporated in the minutes of the Chamber and copies sent to the families of the deceased members.

President Corbett presided at the meeting which was well attended by business men, and Secretary Branch kept a record of the proceedings.

INVESTIGATIONS PROPOSED.

Of Financial Operations of New York Central Lines.

Washington, July 10.—An investigation by the Inter-State Commerce Commission of the financial operations of the New York Central lines was proposed today in a resolution adopted by the Senate without debate when introduced by Senator Norris, of Nebraska.

The resolution, if concurred in by the House, would direct the commission first to investigate and report upon the issue by the New York Central and Hudson River Railway Company of $167,102,400 worth of 4 per cent mortgage bonds to take up 3 1-2 per cent Michigan Central bonds amounting to $19,336,000, 3 1-2 per cent; Lake Shore & Michigan Southern bonds amounting to $90.578,400; and New York Central 4 per cent debenture bonds amounting to $87,188,000.

The commission would be asked to report also whether the transaction would not be an unwarranted and illegal capitalization of the railroad concerned: whether the purpose of the consolidation would not be unwarranted and unlawful; and whether the increased interest is necessary even if the consolidation be unobjectionable.

Senator Norris had prepared data which he declared showed that the 3 1-2 per cent bonds in question do not expire for 85 years and that the exchange of 4 per cent for 3 1-2 per cent dollar for dollar would saddle on to the lines as an additional permanent debt, upon which shippers must pay rates equivalent to $36,773,620.

HYDRO-AEROPLANE CRUISE.

Aviators Flying From Chicago to Detroit—Storm Interrupts Plans.

Macatawa Park, Mih., July 10.—Aviator Beckwith Havens, who reached this control last night in the Chicago to Detroit hydro-aeroplane cruise, had not left at 6 o'clock tonight because of the high wind. Roy Francis is still at South Haven, awaiting a new propeller to replace the one broken last night when his boat struck a log.

Chicago, July 10.—A storm on Loke Michigan interfered with plane of Glenn Martin and Walter Johnson to start today to catch up with Havens and Francis in the Chicago-Detroit hydro-aeroplane cruise.

Martin waited all day for the high waves to go down and will try to start tomorrow morning. Johnson, who reached Robertsdale, Ind., was ready to start and planned to join Martin when he appeared off Robertsdale. Johnson will wait until tomorrow for Martin.

BOLL WEEVIL BARRIER.

Senator Smith Receives Scores of Communications Favoring It.

Washington, July 10.—Letters and telegrams by the score from Southern States inquiring about the proposal to erect a barrier to keep the boll weevil out of the South Atlantic cotton States today poured into the office of Senator Smith of South Carolina, author of the plan.

It was stated that the general tenor of these communications was that it would be feasible to establish a belt some 50 miles wide across Alabama from north to south in which the cotton should not be grown, and thus cut short the journey of the audacious cotton pest to the East.

Another precedent for Federal aid in the proposed plan is said to have been found in the activity of the government to stamp out the cattle tick.

SORORITY CONVENTION

Kappa Deltas in Session Hear Reports from Various Chapters

Asheville, N. C., July 10.—At today's sessions of the National convention of the Kappa Delta Sorority, the greater part of the time of the delegates was given over to the hearing o freports of the various chapters, situated at colleges in all parts of the United States.

The reports showed that the society has had a very successful year. Tonight, a charter was granted to college girls applying for a charter for the Normal College of New York city.

INSPECT ARMY POSTS.

War Secretary Will Start on Tour Wednesday.

Washington, July 10.—Secretary Garrison will start Wednesday on a tour of inspection of army posts in the United States. He intends to visit every garrison except at coast defenses and gather first hand information for his plan to concentrate the army at important centers less remote from transportation facilities than some of the present points.

NEGRO LYNCHED.

Taken From Jail by Mob and Hanged to a Tree.

Blountstown, Fla., July 10.—"Kid" Timmers, negro, was taken from the local jail early today by a mob of citizens, hanged to a tree, and his body riddled with bullets. He was held on a charge of having aided in the escape of another negro wanted for murder. The coroner's verdict was "death caused at the hands of unknown persons."

Motion picture companies are making films of all the activities of the Federal forest service, including plant ing, cutting timber, patrol, and lookout work. Already at least two fire-fighting "movies" are being exhibited.

Vera Cruz, Mexico, is using great quantities of rat traps because of the bubonic plague scare.

The Ladies Are Sure to Take a Hand in It?

FINES TO SCHOOL FUNDS

Being Paid Over for First Time in a Quarter Century

(Special Star Correspondence.)

Fayetteville, N. C., July 10.—For the first time in perhaps 25 years the fines imposed on violators of this city's peace are being turned into the school fund. The first month's report of Clerk R. F. Simmons, of the Recorder's court, shows that the new court, which has superceded the mayor's court in disposition of cases arising within the city limits, paid $206 to the school fund during the month of June.

This represented all the fines collected by the court since its institution. The costs collected in the city cases were handed over to the municipality and those from the county cases were used in defraying the expenses of the court.

It used to be charged regularly by Captain James D. McNeill that the city courts were violating the constitution in that they were not turning their fines over to the school fund. When Captain McNeill became mayor the same condition was observed to exist, the school fund still being minus the fines. In fact no court handling city business, either following or preceding Mayor McNeill's, has followed the law in this respect until the Recorder's court was established.

City Attorney R. H. Dye has been ordered by the board of aldermen to bring suit against the Atlantic Coast Line Railroad Company to compel them to put in order Russell and Winslow streets, along which the A. & Y. branch and the main line of the A. C. L. run. The charter of the old C. F. & Y. V. provides that the street through which it runs shall be kept in order by the railroad company. The immediate object of the municipality's suit is to force the Coast Line to put in two storm sewers on Russell street and work the roadway and sidewalks of Winslow street.

A. Perry, the best known fish dealer in Fayetteville, died Wednesday afternoon at his home on Lumberton street. He had been in feeble health for some months. Mr. Perry came here from Wilmington 20 years ago. He was a man of remarkable energy, and built up a lucrative business here. He married Miss Arabella Fales, of Wilmington, who died two years ago. He leaves a large family of children.

KILLED BY LOCOMOTIVE

Dallas Dixon Crushed Under Wheels of Brother's Engine

(Special Star Telegram.)

Newbern, N. C., July 10.—Dallas Dixon, whose home is at Baird's Creek but who has been employed as superintendent of the East Carolina Lumber Company's logging camp at Carolina City, in Pamlico county, between Olympia and Reelsboro, met instant death about two miles from the camp this morning when he was struck on the head by the cow-catcher of a locomotive in charge of his brother, Herbert Dixon.

An hour or more previous to the time the tragedy occurred, Mr. Dixon took a motor-driven car owned by the company and started up the road for the purpose of attending to some work at a point about five miles distant. When about two miles from the camp and at a point where there is a junction of the log road into the main line, the motor car broke down.

Mr. Dixon discovered that the trouble was at a point which was accessible only by crawling beneath the car and this he did. A few minutes later the locomotive driven by Herbert Dixon blew for the crossing. Doubtless Mr. Dallas Dixon heard this whistle, but thinking probably that he could make necessary repairs and get out of the way before the locomotive reached the crossing, he did not crawl from beneath the car.

Just a short distance from the junction and on the road from which the locomotive was approaching, is a curve. Striking this curve, Herbert Dixon say the motor car with his brother beneath it on the track, and made every effort to bring the locomotive to a stop, but before this could be done it had crashed into the small car, badly demolishing it and killing Dallas Dixon who was beneath it.

N. C. RAILROAD MEETING

Directorate and Officers Named by Governor Take Charge

(Special Star Correspondence.)

Greensboro, N. C., July 10.—The annual meeting of the North Carolina Railroad Company was held here today and officers and directors elected as named by Governor Craig this week, headed by Word H. Wood, of Charlotte, president.

The Governor's wishes are always acceded to in these matters and the proceeding formal and perfunctory. The usual dividend was declared today. In the old days the annual meetings were big occasions. Excursion trains were run to the meeting place and all members of the families of stockholders were carried free. Now the stock is held by fewer people and no excursions are run.

Judge S. B. Adams and Mr. C. W. Jennings have sold to W. H. Stone, Jr., of the Ellis-Stone Dry Goods and Department Store, a part of the old Benbow Hotel property, 41.6 feet, for a price of $36,662, or nearly $900 a front foot.

This is said to be the largest price for which Elm street property has ever sold, except in one instance when a valuable building occupied the lot. As soon as present leases on the property expire Mr. Stone will remodel the storerooms and will open there one of the handsomest department store in the country.

CASE OF DAVID LAMAR.

Placed Before the Federal Grand Jury by District Attorney.

New York, July 10.—The case of David Lamar—his impersonation of United States Senators and Congressmen in connection with the so-called Union Pacific conspiracy, was placed before the Federal grand jury today by District Attorney Marshall. All the testimony taken in the case before the Senate lobby investigation was given to the jury, and Lewis Cass Ledyard, one of the principal witnesses before the committee, was called to testify in person. His examination was not completed today.

United States District Attorney Marshall purposes also to call United States Senator Stone and Representatives Palmer and Riordan.

Under the law the government cannot use the testimony before the Senate committee as a basis for criminal prosecution, but can use it as a guide.

Mr. Marshall is conducting the inquiry in the belief that section 32, of the Federal criminal code has been violated in the matter of impersonation, in that "a general and broad sense" Senators and Representatives are government officers.

"A machine so simple a child can operate it," says an advertisement, but the chances are that mother will turn the crank.

You Can Stop a Carbuncle or Boil After it begins to form, by using DR. PORTER'S ANTISEPTIC HEALING OIL. 25c, 50c, $1.00.

(Advertisement.)

WILSON'S POSTOFFICE

Several Looking at Juicy Plum With Longing Eyes

(Special Star Correspondence.)

Wilson, N. C., July 10.—Aspirants for the Wilson postoffice are beginning to get busy. Mr. E. A. Darden has already a long petition and is circulating among his friends. The term of Postmaster Person does not expire until next March, but the months pass by quickly and the plum is too juicy to risk waiting too long. Several other good Democrats are as anxious as Mr. Darden and they are working quietly with the hope of finally landing the appointment. It is a good appointment and worth the effort.

In the meantime, Wilsonians are watching the political shows from Washington and there is talk that a Wilsonian will land in a good berth. It is certainly a fact that one of the Wilson men is hopeful and unless some changes are made in the slate, as it looks to him, he will bring down the persimmon.

'Phone 695—696. 5—7—9 Orange St.

The Languedoc Canal
was the first large canal constructed in Europe, and was opened on May 19th, 1601. The digging of this canal was considered a gigantic undertaking, although it was a small affair compared with our great Panama canal.
This canal was 148 miles long and 6 1-2 feet deep. It cost $3,500,000 and required 15 years to build.
Did you ever think that digging a canal, shovelful by shovelful, is much like building a bank account, dollar by dollar, and while it seems slow work, yet in a few years wonders have been accomplished? A few cents a day or a few dollars a month regularly added to a bank account will provide in a very few years a fund of which one can be proud.
